EXECUTIVE CHAIRMAN'S STATEMENT

Dear Valued Shareholders,

The year 2020 has been an unprecedented one. Amidst a pandemic, Sunsuria Berhad and its subsidiaries ("the Group") has achieved year-to-date Revenue and Net Profit of RM197.1 million and RM29.1 million, respectively.

On behalf of the Board of Directors of Sunsuria Berhad ("the Company"), it is my pleasure to present to you the Company's Annual Report and Financial Statements for the Financial Year ended 30 September 2020.

Tan Sri Datuk Ter Leong Yap
Executive Chairman

2020: A PANDEMIC YEAR

On March 11, the world as we knew it changed overnight when the World Health Organisation declared the COVID-19 coronavirus outbreak a pandemic. Infecting more than 81.2 million people and causing 1.77 million deaths worldwide as of end-December 2020, COVID-19 crippled the global economy and sparked an international health crisis. The Malaysian Government began nationwide lockdowns and closed international borders to stem the spread of the coronavirus, but these measures also disrupted global supply chains and business operations.

NAVIGATING THE PANDEMIC

As the adage goes, when the going gets tough, the tough get going. We are proud of our Sunsurians, who rose to the occasion during the pandemic, adapting with great agility to the disruptions of business as usual, and embraced change to keep everyone safe from COVID-19.

Prior to the implementation of the Movement Control Order ("MCO") on 18 March 2020, the Company's Crisis Management Committee had initiated the Emergency Response Team ("ERT") in February 2020 to review all possible crisis scenarios and formulate standard operating procedures ("SOPs") in response to the growing coronavirus threat.

With a crisis response plan in place, the Group was able to transition smoothly into the new normal during the various phases of the MCO, supported by the Group's digitalisation initiative.

Among the measures that were introduced were temperature checks for employees at office premises, mandatory COVID-19 testing for construction workers at project sites, work-from-home ("WFH") arrangements and selling to purchasers via online presentations.

Whether operating in a blue-sky scenario or a pandemic, we remain committed to engaging with customers and delivering service excellence through a culture of integrity, quality, and reliability. This is only made possible by upholding the four pillars of the Company:

Great Sunsurians

Integral to Sunsuria's success are our employees - they are the Company's greatest asset. As such, ensuring their safety and welfare was paramount during the pandemic.

Anticipating that the Group's performance would be impacted by the pandemic, the Company actively communicated with employees virtually to provide assurances of no pay cuts and to keep tabs on their wellbeing and welfare. The Company utilised Microsoft Teams and Zoom to communicate internally on a regular basis and hold its virtual townhall.

EXECUTIVE CHAIRMAN'S STATEMENT

True to our vision of being a progressive organisation, we need to set the example of lifelong learning and strive for continuous improvement, if we are to stay ahead of the curve.

Investing into our employees' talent and capabilities, our Human Resource department organised online training, classes, and webinars for Sunsurians to upskill themselves professionally throughout the year.

With the aim of fostering a stronger sense of belonging, ownership, and teamwork among Sunsurians, the Sunsuria Sports and Recreational Club ("SRC") had initiated staff bonding breakfast in February 2020.

When the pandemic hit, SRC refocused their efforts online, organising virtual health and wellness events for employees to keep fit and stay connected while working from home.

Excellence in Performance

Quality is our utmost focus. From product offerings to services, we pride ourselves as a customer-centric organisation that offers a distinctly Sunsuria experience of service excellence through a culture of integrity, quality, and reliability.

The silver lining of the pandemic was that it galvanised our Sunsurians to strive for innovation and to optimise our resources, as we continued to deliver value to our stakeholders with integrity, quality, and excellence.

Digitalisation of the Group's business operations was accelerated during the pandemic, which improved operational efficiency and primed the company for future growth.

Show Unit for Forum Serviced Apartment, Setia Alam, Selangor

The Company also embarked on cost-cutting measures on non-critical expense items, which increased the Group's profitability.

Sustainability

Beyond property development and other businesses within the Group, it is our hope to contribute to nation-building efforts through sustainable cities and communities.

Building on our Sustainability Policy that was formulated in 2019, the Group identified five Sustainable Development Goals ("SDGs") that are most aligned to our vision. We have endeavoured to integrate our strategies to contribute to the aspirations and targets of these goals: Good Health and Wellbeing, Quality Education, Decent Work and Economic Growth, Sustainable Cities and Communities, as well as Peace, Justice and Strong Institutions.

Last year the Group also introduced and implemented Key Performance Indicators ("KPIs") to track our sustainability performance in a robust manner - reflecting our deepening commitment towards embedding sustainability throughout business operations, so we are well-prepared to face unforeseen challenges with greater resilience.

Making the World A Better Place

Beyond providing great quality services to our customers, Sunsuria aims to contribute to society at large. We desire to create products and services that improve the lives of others and reduce our impact on the environment. We respect and value the community, and actively look for opportunities to enrich it through our actions.

During the year, the Group contributed a total of RM785,835 to organisations that addressed the plight of communities most adversely impacted by the pandemic, as well as education scholarships and social welfare. Among the beneficiaries was The Edge COVID-19 Fund via the Associated Chinese Chambers of Commerce and Industry of Malaysia ("ACCCIM") and donation of medical gloves to China.

PANDEMIC ECONOMY

On the domestic front, the Malaysian economy experienced a 17.1% contraction in GDP for the second quarter of the year, as overall economic activity fell sharply following the implementation of the MCO on 18 March 2020. This was the lowest recorded performance since the fourth quarter of 1998, during which the economy contracted by 11.2%.

There were signs of recovery in the third quarter, with the economy contracting by 2.7%, bolstered by fiscal measures that were launched by the government to mitigate the impact of the pandemic.

EXECUTIVE CHAIRMAN'S STATEMENT

The property industry was not spared from the pandemic, with the National Property Information Centre ("NAPIC") reporting a 27.9% drop in transaction volume to 115,476 transactions in the first half of 2020 and a 31.5% drop in yearly value.

However, the volume of transactions improved in the third quarter of 2020, with 89,245 units transacted during the period - a year-on-year increase by 7.4% from the same guarter in 2019, according to NAPIC.

Among the measures launched by the government to stimulate the property market were reintroducing the Home Ownership Campaign 2020, Real Property Gains Tax ("RPGT") exemption for the sale of up to three residential properties, stamp duty exemption, and the removal of the 70% margin of financing limit. A six-month loan repayment moratorium beginning in April 2020, helped to keep default rates in check. The National Economic Recovery Plan ("Penjana") worth RM35.0 billion also comprised stimulus initiatives aimed at addressing the overbuilt property sector.

The Group attained a year-to-date revenue and net profit of RM197.1 million and RM29.1 million respectively, compared to RM534.3 million and RM135.5 million respectively in the previous year's corresponding quarter.

Besides the Group's financial year ended 30 September 2020 ("FY2020") financial performance being adversely affected by various levels of the MCO, the previous financial year's financial results were also higher due to the point in time recognition of Jasper Square, a commercial development completed in January 2019 which contributed revenue and gross profit of RM152.6 million and RM103.6 million respectively.

A HEALTHY FINANCIAL PERFORMANCE

For the FY2020, the Group's revenue totalled RM197.1 million, which is lower than the RM534.3 million recorded in the financial year ended 30 September 2019 ("FY2019"). Net profit attributable to owners of the Company decreased to RM29.1 million in the year under review compared to RM135.5 million in FY2019.

Despite the pandemic - hit economic landscape, the Group, being well-positioned in terms of cash management and healthy cash flows, was able to meet contractual obligations in a timely manner with little disruption. The Group recorded a healthy profit stream due to the completion of commercial and residential developments such as Bell Avenue, Jasper Square, The Olive and Monet Lily in Sunsuria City; Suria Residence in Bukit Jelutong; and The Forum 1 in Setia Alam in the previous financial years; as well as the Bell Suite Retail and Bell Suites SOHO in Sunsuria City in the current financial year. Currently, the Group's ongoing projects are Monet Springtime, Monet Garden, Giverny Walk and Tangerine Suites in Sunsuria City, as well as The Forum 2 mixed development in Setia Alam.

A more in-depth review of our financial and operational performance will be reported under the Management Discussion and Analysis Section of this Annual Report.

STRATEGIC CORPORATE INITIATIVES

The year 2020 saw the Group embarking on corporate initiatives to achieve healthy and sustainable long-term business growth.

On 2 October 2020, the Company entered into two agreements to venture into the development of Bangsar Hill Park - a high-rise residential project along Lorong Maarof and Nadi @ TAR, a high-rise mixed commercial project along Lorong Tuanku Abdul Rahman in Kuala Lumpur. The proposed Bangsar Hill Park project has an estimated gross development value ("GDV") of RM3.0 billion, while Nadi @ TAR has an estimated GDV of RM524.8 million.

The proposed Bangsar Hill Park agreement involved a Conditional Shares Subscription and Shareholders' Agreement ("SSSA") with Bangsar Hill Park Development Sdn Bhd, Suez Capital Sdn Bhd, Dasar Temasek Sdn Bhd and Sunsuria KL Sdn Bhd.

For the proposed Nadi @ TAR project, the Group entered a Conditional Shares Sale and Purchase Agreement ("SSPA") to acquire an investment holding company, Bumilex Construction Sdn Bhd , which owns the development rights over two plots of land along Lorong Tuanku Abdul Rahman via its 51% subsidiary Montflex Sdn Bhd.

The acquisitions are expected to contribute positively to the earnings of the Group over the long term through income contribution from the development projects, as well as opportunities for the Group's construction arm to tender for construction contracts to develop Bangsar Hill Park and Nadi @ TAR.

ENHANCING SHAREHOLDERS' VALUE

Bearing testament to Sunsuria's unwavering commitment to quality are the string of accolades received this year. In FY2020, The Olive development at Sunsuria City received 83% in our QLASSIC score and was awarded the High QLASSIC Achievement for High Rise Residential Development by the Construction Industry Development Board ("CIDB") Malaysia. The QLASSIC (Quality Assessment System in Construction) score is accorded upon the evaluation of a development project's workmanship by an independent assessor to ensure the delivery of quality products to customers using the QLASSIC method.

This year also saw Suria Residence winning the MLAA Honour Award 2019 at the Malaysia Landscape Architects Awards 2019. Recognising the best in landscape architecture from various aspects of the industry, the MLAA is organised by the Institute of Landscape Architects Malaysia and is endorsed by the International Federation of Landscape Architects.

EXECUTIVE CHAIRMAN'S STATEMENT

LIPHOLDING STRICT CORPORATE GOVERNANCE

The Board remains committed to upholding and implementing strong standards of corporate governance as well as robust risk management and internal control measures throughout the organisation. As an integral component of the business, these elements help ensure sustainable, long-term growth, bolster investor confidence, which in turn, enhances the Company's reputation and shareholder value creation.

Being named by Forbes Asia in its 2020 "Best Under A Billion" list is an international recognition of our strict corporate governance. The award, which highlights 200 top-performing small and mid-sized public-listed companies in the Asia-Pacific region with sales under US\$1 billion that have demonstrated a track record of outstanding corporate performance, includes 'Strong Corporate Governance' in its selection criteria.

THE NEW NORMAL IN 2021 AND BEYOND

The challenges brought forth by the COVID-19 pandemic were unprecedented. Yet, having the benefit of hindsight now, we see clearly that the hardships of 2020 served to teach us many lessons.

Enforced lockdowns and quarantines remind us that social isolation is unnatural, and that we need one another to survive and thrive in this world.

The slowdown in life and economic activity forced us all to reassess our priorities and closely scrutinise how we are operating from a sustainability perspective, and whether we are consciously leaving a positive legacy for the future generations.

Even as our country undergoes yet another round of MCO in a renewed bid to control a new wave of COVID-19 infections, we acknowledge that this discruption is a neccesary part of the new normal moving forward.

With WFH arrangements and digital initiatives in place, we continue to operate our business in compliance with guidelines issued by the Ministry of International Trade and Industry effective January 13, 2021.

As the government continue to manage the delicate balance between lives and livelihoods, we will do our part in maintaining strict SOPs not just in our business operation but in our everyday lives, having emerged from 2020 better equipped with digital accelaration and innovation.

With COVID-19 vaccines being made available worldwide provides reason for optimism. We take heart that although 2020 has been a year of loss for many, it is also a year of consolidation. Armed with the knowledge and experience gained through navigating the pandemic last year, we are confident that we can, and will flatten the curve once again in the year ahead - as we once did.

A NOTE OF APPRECIATION

On behalf of the Board of the Company, I would like to extend my sincere thanks and gratitude to our shareholders for their trust and confidence in Sunsuria now and in the years gone by. I would also like to convey my deep appreciation to all Sunsurians for your dedication and commitment as we continue to grow this company together.

Last but certainly, not least, we would like to extend our heartfelt appreciation to our valued customers, bankers, government departments and agencies, vendors, suppliers, partners, and stakeholders for your resolute support. Without your cooperation, we can achieve nothing. It is our hope that we will grow from strength to strength in the year ahead.

Tan Sri Datuk Ter Leong Yap **Executive Chairman**

MANAGEMENT DISCUSSION AND ANALYSIS

DEAR VALUED SHAREHOLDERS,

The emergence of the COVID-19 has caused unparalleled disruption to economies and lives around the world. International travel arrived at a standstill, global supply chains were derailed, healthcare systems were overwhelmed, and lives - as well as livelihoods - were lost. Besides the COVID-19 pandemic, the historical collapse of crude oil prices to an all-time low and domestic political uncertainty were among the factors that led to challenging market conditions for business in Malaysia.

Despite the dismal year, Sunsuria Berhad and its subsidiaries ("the Group") was able to navigate the pandemic and achieve a healthy financial performance by maintaining our focus on delivering outstanding sustainable value to customers and stakeholders, regardless of prevailing market conditions. With the slowdown in economic activity, the Group focused on consolidation of human capital and business operations via capacity-building, a digitalisation initiative, and deeper sustainability integration this year — measures that not only contributed positively to the Group's business performance but lay a stronger foundation for long-term growth in future.

STRENGTHENING OUR VALUE PROPOSITION

Not one to put all our eggs in one basket, we diversify into businesses that complement and enhance the value of our core property development business. Diversification adds to our unique value proposition and competitive advantage to the business, as we seek to provide innovative lifestyle solutions that meet our customers' needs.

Recognising that health is wealth, the Group ventured into the healthcare business via a joint venture with Dr Tan Bo Ren, owner of Boren Healthcare, a homegrown group of healthcare providers that provides luxury medical care, ranging from aesthetics, dentistry, and general medicine to postpartum confinement care.

Sunsuria is currently awaiting the official letter of approval before commencing operations. We believe that the strategic partnership will provide our customers the convenience of having quality healthcare available right at their doorstep.

The Group's existing diversified businesses include food and beverage ("F&B") companies under Sunsuria City Amenities Sdn Bhd Group, which operates Double Happiness, Artelier Café, and Ming Yang eateries; construction companies Sunsuria Asas Sdn Bhd and Citic Sunsuria Sdn Bhd.

MANAGEMENT DISCUSSION AND ANALYSIS

IMPROVING THE LIVES OF THE COMMUNITY

Reflecting the core values of the Company and our social responsibility as a corporate entity, we strive to respect the local community where our projects are located by actively engaging with them to create a better, more sustainable society. This is also aligned with the United Nations' Sustainable Development Goal ("SDG") No. 11 to build sustainable cities and communities.

Prior to the Movement Control Order ("MCO") on 18 March 2020, Sunsuria was involved in community engagement initiatives promoting causes such as zero waste living, helping the poor, ending world hunger, mental health, family welfare and supporting local Malaysian products.

The Group also contributed a total of RM785,835 to organisations that helped individuals most adversely impacted by the pandemic, as well as medical frontliners, education scholarships, and social welfare.

Throughout the year, it is our hope that our community efforts will educate and inspire Malaysians be the best versions of themselves - to achieve their best potential, to be compassionate towards the marginalised and to be intentional about building a better Malaysia.

CAPACITY BUILDING

Highly engaged employees deliver better customer service, stay longer with the organisation, and are more intrinsically motivated to perform better at their jobs - factors that contribute towards business sustainability and performance. The success of a company ultimately boils down to the collective performance of employees, making it imperative that the Group continues to actively invest in our employees' wellbeing and professional development.

From leadership development, management in the post-pandemic world, and financial reporting to COVID-19 related training, the Group conducted a series of external training programmes for Sunsurians via online classes and webinars.

As the saying goes, 'All work and no play make Jack a dull boy'. Zumba sessions, a Dalgona coffee contest and various fitness challenges organised virtually by the Sunsuria Recreational Club provided employees with fun ways to stay healthy together and much needed human interaction despite being confined in their homes during the MCO.

SUSTAINABILITY JOURNEY

Building for a sustainable future requires a resolute commitment towards economic efficiency, environmental performance, and social responsibility.

MANAGEMENT DISCUSSION AND ANALYSIS

As such, we introduced our Sustainability Policy in 2019, which has been instrumental in providing direction for the planning and implementation of sustainability initiatives within the Group.

The key highlights of our sustainability journey in 2020 include expanding our sustainability reporting scope to include the landscape and nursery division and introducing Key Performance Indicators ("KPIs") to monitor our sustainable performance.

By the end of financial year ended 30 September 2020 ("FY2020"), the Group has met four out of five KPIs relating to electricity consumption, customer satisfaction, project quality, occupational health and safety, as well as local procurement.

As we progress each year, it is our intent to gradually increase the number of KPIs to achieve more for the environment, economy, and community.

Committed towards promoting green building initiatives, the Group implemented eco-friendly features in development projects to reduce the buildings' overall environmental footprint.

Among them were natural ventilation and lighting in Bell Suites; starken block and panel in Monet Springtime and Monet Garden; North-South orientation to avoid direct sunlight and reduce room temperature in Tangerine Suites; and rainwater harvesting tanks in The Forum 2 for landscape irrigation.

DIGITAL DRIVE

During the MCO period, the Group sold 49 units of homes virtually over the course of two months. The digitalisation of business operations became increasingly critical during the MCO, as social distancing and work-from-home ("WFH") arrangements constitute the new normal for businesses. The Group's digitalisation initiative involved enabling employees to WFH seamlessly, engaging with prospective customers via Facebook Live, signing Sales and Purchase Agreements ("SPA") with customers using video conferencing, as well as conducting Sunsuria's 51st Annual General Meeting online.

Going digital presented the Group with many benefits - improved stakeholders' communication, optimum operational efficiency, wider reach to customers through digital channels and more timely engagement with customers via our mobile app.

Vacant possession and defect management were made accessible for customers via the Sunsuria Moments mobile app while salespersons could manage customers on the move using a mobile customer relationship ("CRM") management app. A chatbot using artificial

intelligence was introduced to the Sunsuria website to provide sales and leasing information to the public

The Group's F&B businesses began taking online food orders and engaged third-party delivery service providers to deliver food to customers' doorsteps, as people stayed home during MCO.

Moving forward, digitalisation will play an increasingly important role in the business, with plans by the Group to incorporate automation, smart building management and Internet of Things ("IoT") for an enhanced customer experience.

OUR FINANCIAL PERFORMANCE

For FY2020, the Group attained a year-to-date ("YTD") revenue and net profit of RM197.1 million and RM29.1 million respectively, compared to RM534.3 million and RM135.5 million recorded in the previous financial year.

Besides being adversely affected by various levels of the MCO in Malaysia, the Group's financial performance for FY2020 was weaker due to the previous financial year's financial results including revenue and gross profit contribution of RM152.6 million and RM103.6 million respectively from Sunsuria's Jasper Square commercial development upon its completion in January 2019.

The difference in revenue and net profit year-on-year is due to higher work completion upon the issuance of the Certificate of Completion and Compliance for The Olive and Monet Lily at Sunsuria City in the previous year, which contributed 39.2% of revenue for the financial year ended 30 September 2019 ("FY2019").

The Group's revenue in the fourth quarter ("Q4") of FY2020 was higher quarter-on-quarter due to higher sales recorded during the period, while net profit was higher compared to the preceding quarter as the percentage of work done during the quarter almost doubled during Q4 FY2020, following the resumption of construction work during the CMCO.

The Group's FY2020 revenue was mainly derived from the property development business, which contributed 98.3% of the Group's revenue.

Monet Springtime contributed RM76.7 million to the Group's revenue while Bell Suites S0H0 & Retail and Monet Garden contributed RM52.3 million and RM26.5 million respectively. Meanwhile, The Forum 2 integrated development of S0H0, Serviced Apartments and Serviced Suites contributed RM16.2 million to the Group's revenue.

MANAGEMENT DISCUSSION AND ANALYSIS

HEALTHY BALANCE SHEET

The Group's total assets in the financial year under review increased to RM1.6 billion from RM1.5 billion in FY2019. Shareholders' funds rose by RM29.1 million to RM1.0 billion in FY2020 from RM999.6 million in FY2019. The Group's total cash and bank balances of RM267.8 million exceeded total borrowings of RM251.3 million.

The Group continues to manage its financial position prudently and cautiously. Amidst a depressed pandemic economy, the Group achieved a commendable performance in FY2020.

KEY DEVELOPMENT PROJECTS

The Group's ongoing projects are Monet Springtime, Monet Garden, Giverny Walk and Tangerine Suites at Sunsuria City, as well as The Forum 2 mixed development at Setia Alam. FY2020 saw the completion of the Bell Suites SOHO & Retail.

In FY2020, The Olive - Sunsuria City's first high-rise residential development - received a QLASSIC score of 83.0% and was awarded the High QLASSIC Achievement for High Rise Residential Development by the Construction Industry Development Board ("CIDB") Malaysia. Monet Lily, the first landed residential development in Sunsuria City, achieved a QLASSIC score of 77.6% while commercial development Bell Suites received a QLASSIC score of 74.0%.

The QLASSIC (Quality Assessment System in Construction) score is accorded upon the evaluation of a development project's workmanship by an independent assessor to ensure the delivery of quality products to customers using the QLASSIC method.

COMPLETED PROJECTS

Bell Suites

Featuring 478 units of SOHO suites and 5 units of retail, Bell Suites SOHO & Retail was launched in March 2017 with a combined gross development value ("GDV") of RM194.3 million. Winner of the Best Small Homes Development at Starproperty.my Awards 2018, the mixed development has issued vacant possession in February 2020 and contributed RM52.3 million to the Group revenue in FY2020.

Jasper Square

Launched in February 2016, Jasper Square is the first commercial development of Sunsuria City, with a GDV of RM158.5 million. Spanning more than 8.5 acres of land, Jasper Square consists of 86 units of shop offices amid lush foliage. Located adjacent to Xiamen University Malaysia Campus within Sunsuria City and close to the township's main entrance, Jasper Square offers convenience and connectivity. Jasper Square issued vacant possession in January 2019.

Monet Lily

The first landed residential development in Sunsuria City, Monet Lily was launched in October 2017 with a GDV of RM154.8 million. Boasting of French contemporary design, Monet Lily features 211 units of twostorey terrace homes. Vacant possession for Monet Lily was delivered to purchasers in October 2019.

The Olive

With a GDV of RM285.0 million, The Olive comprises 663 units of freehold condominium with full amenities. The first high-rise residential development of Sunsuria City, The Olive issued vacant possession in November 2019.

MANAGEMENT DISCUSSION AND ANALYSIS

ONGOING PROJECTS

Monet Springtime

Monet Springtime offers 308 units of two-storey terrace homes. Launched in FY2018 with a GDV of RM224.9 million, Monet Springtime's work completion was 79.6% in FY2020 and is set to be completed in FY2021.

Monet Garden

With a GDV of RM196.5 million, Monet Garden residential development launched 132 units of townhouses in November 2017, followed by 114 units of three-storey terrace homes in August 2018. Set to be completed in Q3 of 2021, Monet Garden Townhouses and three-storey terrace homes were 78.6% and 10.6% sold respectively and with 79.8% work completion in FY2020.

Giverny Walk

Launched in January 2019 with a GDV of RM61.1 million, Giverny Walk consists of 33 units of dual frontage shoplots. The closest commercial centre to Monet Residences - Monet Lily, Monet Springtime and Monet Garden - Giverny Walk offers lakefront views and maximum visibility to the businesses there and will enjoy regular patronage from residents. Giverny Walk's work completion was 74.1% and is expected to be completed in FY2021.

Tangerine Suites

With the promise of affordable living for first-time home buyers, Tangerine Suites is a Peranakan themed high-rise residential development, offering 778 units of multi-facility serviced apartments. Launched in May 2019 with a GDV of RM210.6 million, Tangerine Suites' work completion was 21.6% in FY2020, and is expected to be completed in FY2022.

Forum 2

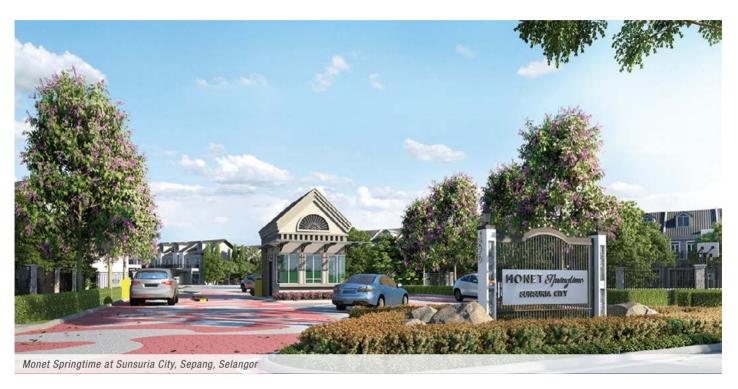

The Forum @ 7th Avenue in Setia Alam is the Group's first integrated mixed development project, consisting of retail outlets, offices, residential suites, corporate offices and SOHO suites. Phase 1, which features 264 units of shop offices and retail lots, was launched in March 2015 and completed in June 2018.

Forum 2 refers to the second phase of the development, which offers a holistic lifestyle with its business and leisure offerings. Forum 2 comprises the SOHO Tower, Serviced Apartments Tower, Office Tower, and a two-floor retail mall. The Serviced Apartments Tower was launched in November 2019 while the Corporate Office Tower, which was 32.8% sold in FY2020, is expected to be completed by 2023.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS RISKS

The Risk Assessment Committee has identified two critical risks that requires constant monitoring for FY2020. Firstly, a strategic business risk in the form of the slowdown in economy due to the COVID-19 pandemic; and secondly, credit risk due to limited funding for endfinancing of projects.

THE WAY FORWARD

The World Bank has forecast Malaysia's economy to grow by 6.7% in 2021, after contracting by 5.8% in 2020. Previously, the World Bank's GDP contraction forecast for 2020 was at 4.9% - the greater contraction forecast being attributed to the reimposition of the Conditional Movement Control Order ("CMCO"), which adversely affected the economy. According to the World Bank, the 6.7% GDP growth forecast will be contingent upon several factors - the effective roll-out of a COVID-19 vaccine, gradual improvements in exports and a build-up in consumption and investment.

The Group will continue to exercise prudence in expenditure and in growing its land bank under the new normal. Having embarked on more digitalisation initiatives in FY2020, the Group hopes to further tap into new business opportunities and innovative product offerings to stay relevant to prospective and existing stakeholders. The Company also aims to improve on the QLASSIC scores of all ongoing projects, such as Giverny Walk, Monet Garden, and Monet Springtime, as we continue to push ourselves towards higher standards of quality, integrity, and excellence in our projects.

Moving forward, the availability of COVID-19 vaccines give us reason to hope for a better future, as we look forward to overcoming the pandemic in due time, and creating a lasting, sustainable legacy for future generations.

BOARD OF DIRECTORS

BOARD SKILL MATRIX

OUR BOARD DIVERSITY

None of the Independent Non-Executive Directors hold office for more than nine (9) years under the reporting period. The Board is well aware that the tenure of an independent director should not exceed a cumulative term of nine (9) years as recommended by the MCCG. Upon completion of the nine (9) years, an independent director may continue to serve on the board subject to the director's re-designation as a non-independent director. The NRC and the Board also noted that pursuant to the MCCG, the Board may provide justifications and seek shareholders' approval in the event there is intention to retain a Director who has served a cumulative term of nine (9) years as an Independent Director.

OUR COMMITMENT TO SUSTAINABLE DEVELOPMENT

Inspired by the 17 Sustainable Development Goals ("SDGs") introduced by the United Nations under Agenda 2030, as a Group, we have identified five SDGs that are most aligned to our vision to develop a business that is economically, environmentally and socially sustainable. We have endeavoured to integrate our strategies to contribute to the aspirations and targets of these goals.

OUR CONTRIBUTIONS

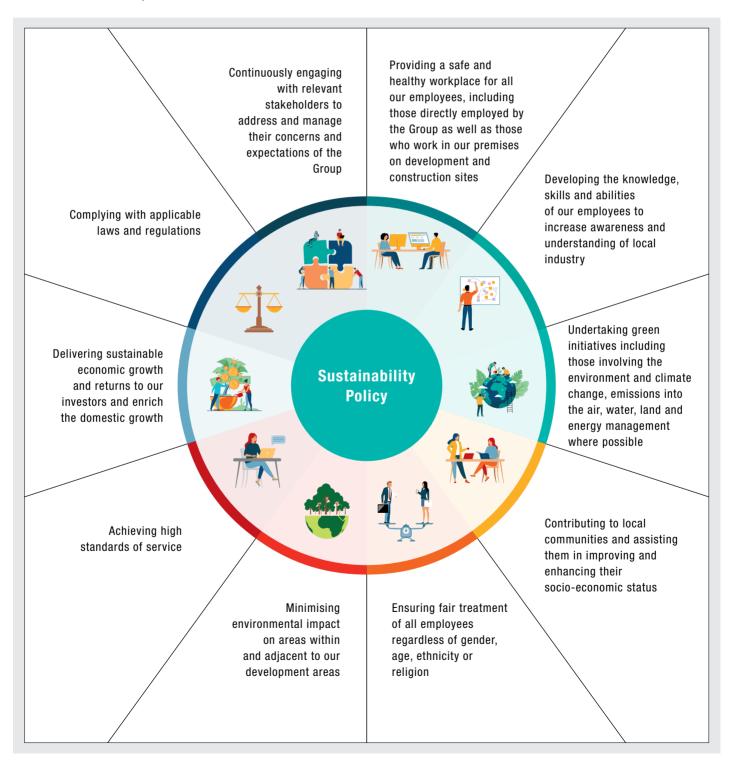

- Establishment of Crisis Management Committee with the support of Sunsuria's **Emergency Response Team**
- Establishment of Standard Operating Procedure ("SOP") for COVID-19 (Coronavirus disease 2019) and fortnightly review of compliance to ensure health of site workers and employees
- In-house training applications and videos for employees
- Safety & Health Awareness training attended by the Group's QAQC personnel
- Review of supplier's ISO System during pre-qualification as part of our screening process
- Standard safety and health training course given to every staff in construction and F&B division
- All employees are given annual appraisal for job performance
- Installation of solar panels on the roof top of Celebration Centre Sales Gallery for electricity generation
- Implementation of rainwater harvesting tanks for landscape irrigation
- Numerous community programmes to raise awareness and donate to a charitable cause
- Whistleblowing Policy, Board Charter, Code of Conduct and Ethics, and Terms of Reference to ensure integrity in Group's management
- Implementation of Anti-Corruption Framework in FY2020
- Formation of Anti-Bribery and Anti-Corruption Working Group ("ABACWG") with Board approval

OUR SUSTAINABILITY PRINCIPLES [102-16]

The core values of Sunsuria are Integrity, Reliability, Respectful, Committed and Progressive. These values guide us in our business, define our work culture and are the tenets upon which we established the Group's Sustainability Policy.

> Creating sustainable value today and into the future for the benefit of our stakeholders

Our Sustainability Policy which was introduced last year has been instrumental in providing direction for the planning and implementation of initiatives within the Group.

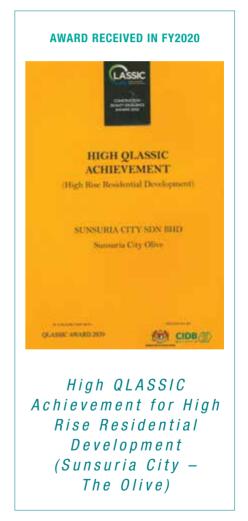

KEY SUSTAINABILITY PERFORMANCES [102-48]

This year we introduced and implemented KPIs to track our sustainability performance in a robust manner. The KPIs represents five materials sustainability matters that are crucial to our sustainability performance and as we progress each year, it is our intent to build and increase the number of KPIs.

By the end of this financial year, we are proud to announce that four out of five KPIs, that relate to electricity consumption, customer satisfaction, project quality, and local procurement have been met.

	Target	Achievement	
Energy Efficiency	To achieve lower energy intensity at our corporate headquarters with FY2019 baseline target of 1,113.98 kWh/m².¹ The electricity intensity for FY2019 is amended from 11.8 kWh/m² to 113.98 kWh/m² due to changes in calculation methodology.	Achieved energy intensity of 104.71 kWh/m² at our corporate headquarters in FY2020.	
Customer Satisfaction	To achieve a customer satisfaction score of 75% for all stages (Pre-sales, Post-sales and Post-project handover) in our development projects.	Achieved overall customer satisfaction score for the following stages: 1. Pre-sales score: 86.84% 2. Post-sales score: 89.70% 3. Post-project score: 83.97%	
Occupational Health and Safety	Zero Lost Time Injury Frequency Rate ("LTIFR") as per industry benchmark.	Achieved Zero LTIFR for 1,267,641 man-hours worked since projects commencement. LTIFR: Number of lost time injuries occurring in a workplace per 1 million hours worked.	
Supply Chain Management	Minimum 80% procurement spending on local suppliers.	80% procurement spending on local suppliers in FY2020.	
Products and Service Quality	Achieve QLASSIC Score of 80% for all projects.	Achieved QLASSIC Score for the following projects in FY2020: 1. The Olive: 83% 2. Monet Lily: 78% 3. Bell Suites: 74%	

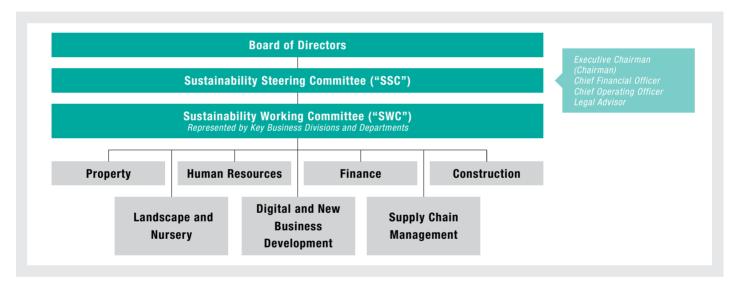

Not Achieved Partially Achieved Achieved Achieved

SUSTAINABILITY GOVERNANCE STRUCTURE [102-18, 102-20, 102-32]

Sustainability requires a top-down approach where the Board of Director ("Board") play a pivotal role in leading the Group towards achieving its goals and targets. We have established a four-tiered governance structure for effective oversight and implementation of sustainability initiatives.

Our Sustainability Steering Committee ("SSC") which is headed by the Group's Executive Chairman reports directly to the Board. The Sustainable Working Committee ("SWC") comprises representatives from key business divisions and departments as well as assists the SSC to operationalise Sunsuria's sustainability agenda. The SSC and SWC convene annually to discuss progress made in the implementation of sustainability strategies, with additional meetings upon the request of the Committee Chairman.

In FY2020, the roles and responsibilities of the SSC and SWC retained since FY2019 (illustrated in the structure below) were established by the Board in the Terms of Reference.

- Leads the Group's Sustainability Agenda
- Manages the Group's Sustainability Initiatives
- Provides the final review and approval on sustainability matters related to the Group
- Develops the Group's sustainability strategies and objectives in line with the Board agenda
- Oversees the SWC for the Group's progress in sustainability programmes
- Ensures that sustainability disclosures are in accordance with Bursa Malaysia's Listing Requirements
- Assists the SSC in preparing the disclosures for the Group's sustainability report
- Assists the SSC in its duties to carry out the Group's sustainable strategies, policies and initiatives

MATERIALITY ASSESSMENT PROCESS

Identifying our economic, environmental and social matters that have material impact is key to formulate and implementing sustainability strategies in Sunsuria. We reviewed and retained all 18 material sustainability matters that were identified in FY2019 as they continue to be relevant to our stakeholders and have significant impact on our business operations. However, as the COVID-19 pandemic has impacted businesses in many ways, we re-evaluated the material matters using a weighted ranking method to ascertain if there are changes in their prioritisation.

Having completed the assessment of the 18 material matters, we identified eight (8) material matters - Product and Service Quality, Governance & Ethics, Customer Satisfaction, Financial Performance, Occupational Health and Safety, Risk Management, Market Presence and Effluent & Waste Management – to be critical. The remaining 10 are high priority.

MAPPING OUR MATERIAL MATTERS

ROBUST GOVERNANCE FRAMEWORK

Governance and Ethics

SUSTAINABILITY STARTS FROM THE TOP

Sunsuria has been in property development for over three decades. We are currently involved in over 24 projects, ranging from homes and shopping malls to retail offices. By prioritising ethical business practices, our top management seeks to set an example within the property development industry.

GOVERNANCE AND ETHICS [205-2]

We hold ourselves to high standards of integrity and accountability in business. Our Board Charter clearly outlines the roles and responsibilities of Board members, wherein every member is expected to conduct themselves professionally and in the interest of stakeholders. Sunsuria has also implemented a robust Code of Conduct and Business Ethics as well as a Whistleblowing Policy to promote transparency and ethical practices. Any amendments or new policies are internally circulated by email within the Group.

Sunsuria has zero-tolerance for bribery and corruption, and has a "No Gift No Entertainment policy" to discourage Sunsurians across all employment levels to engage in such practices. Training on Corporate Liability, Adequate Procedure and ISO 37001 (Anti-bribery management system) was held in FY2019, with a refresher briefing for all Heads of Departments in FY2020. This training served to remind us of the consequences of corruption. We are pleased to announce that zero cases of misconduct were recorded in FY2020.

As part of our renewed commitment in FY2020, the Board has approved the adoption of an Anti-Corruption Framework and the formation of the Anti-Bribery and Anti-Corruption Working Group ("ABACWG"). The primary objective of the ABACWG is to assist the Board in establishing anti-bribery and corruption preventive measures and maintaining the Group's Anti-Bribery and Corruption Policy & Procedures.

All policy relating to corporate governance are reviewed periodically and available on Sunsuria's corporate website.

RISK MANAGEMENT [102-30]

This reporting period, the Risk Assessment ("RA") Committee implemented a two-level approach for any risk assessment process based on the ISO 31000:2009 Risk Management – Principles and Guidelines, an internationally recognised standard by the Australian-New Zealand ISO Committee. This allows Sunsuria to allocate the appropriate amount of attention and resources depending on risk level and types of risk identified. The assessment approach can be segregated into the following categories:

- A. Group risk assessment for matters that affect Sunsuria as a Group
- B. Divisional and operational level risk assessment for matters that affect a specific business division of the Sunsuria Group (excluding property development)

As part of the risk assessment, Sunsuria management has proposed the initiative be called "risk response" with the following actions.

Identify if the risk is a threat or opportunity

Identify the appropriate response/action plan for each risk

Periodic review of response/action plan to determine its effectiveness

So far, we have identified four (4) critical risks that requires constant monitoring from the Group's RA for FY2020.

i. Regulatory and compliance risk

The Group's operations are subject to guidelines, laws and regulations of local authorities, government bodies and ministries, securities commission and listing requirements.

ii. Operational risk

The Group's operations are exposed to sales, project management and construction related risks.

iii. Competition risk

The Group's revenue and profitability are exposed to the risk of uncertainty arising from global and local economic conditions and the challenging property market sector affected by the COVID-19 pandemic.

iv. Feasibility risk

The Group strives to balance between achieving customers' demands over designs and pricing, quality and practicality of its development products while emphasizing on cost optimisation to deliver positive growth to the Group's earnings.

Such risks are due to the business environment the Group operates in and may not be completely resolved. Therefore, it is important for Sunsuria to conduct periodical review of risks and mitigate any impacts that may arise.

SUNSURIA CITY

BUILDING BUSINESS OPPORTUNITIES

Sunsuria is committed to conducting business beyond ensuring profitability. We support the local economy by providing opportunities to the local population and elevating their living standards.

FINANCIAL PERFORMANCE [201-1, 201-2]

FY2020 has been a challenging year for Sunsuria due to the COVID-19 pandemic and the Movement Control Order ("MCO") which led to a slowdown in economic activities. Nevertheless, the Group has managed to generate RM197.1 million in total revenue in FY2020, which was a 63.1% drop from FY2019's total revenue of RM534.3 million.

RM15.9 million was distributed for employee wages and benefits, and RM25.4 million was the amount taxed by the government. Full details of our financial performance can be viewed on page 15 of this annual report.

MARKET PRESENCE [202-2]

Over the years, Sunsuria has established a strong market presence within the property development industry and local economy. We recruit and promote employees based on merit and their contribution to the success of the Group. Discrimination is not tolerated at Sunsuria.

We recognise our role in supporting the local economy and provide career opportunities to local talent. By the end of the reporting period, 100% of our senior management level was Malaysian.

SUPPLY CHAIN MANAGEMENT [204-1]

To carry out our construction operations, we source materials from many suppliers/contractors. For our supply chain to run smoothly and for the punctual delivery of products, we have an efficient management system. The Group's Tender Procurement Committee performs biannual assessments of suppliers based on criteria covering quality and reliability.

We record the ISO systems of potential suppliers as a prequalification and suppliers with a robust ISO system are considered more favourably when awarding contracts.

We are pleased to report that in FY2020, our procurement budget met our KPI of 80% procurement spending on local suppliers.

BUSINESS DIGITALISATION

The digitalisation of business operations has become increasingly important due to the impact of COVID-19, where social distancing is the new normal and employees were required to work from home during the MCO. Sunsuria introduced several initiatives during the reporting period to facilitate this transition to digitalisation.

Initiatives	Objectives	Relevant users
e-Inspection	Online application for contractors to submit "Request for Inspection" to Sunsuria	Suppliers/ Contractors
VP Key Management module	Allow the Customer Experience Officer to keep track of key handling status	Employees
Microsoft Teams	Enable Sunsuria employees to maintain communication via online chatting and video conference in Microsoft Teams during the COVID-19 MCO	Employees
VPN Access company-wide	Enable Sunsuria employees to access shared folder and continue working from home during the COVID-19 MCO	Employees
Chatbot	An auto-answering tool in Sunsuria's website to provide sales/leasing information to the public	Customers, Suppliers, Local Communities
Body Temperature Tracking System	Allows receptionists to record employees' body temperature and health condition	Employees

ENVIRONMENTAL REGULATORY COMPLIANCE [307-1]

The Group complies with relevant environmental regulations to maintain its license to operate. Noise and air emissions quality monitoring were conducted for Tangerine Suites in FY2020 in order to gauge its environmental impact and possible mitigation measures. The Group recorded zero incidences of environmental non-compliance in FY2020.

Environmental Regulations						
Environmental Quality Act 1974	Street, Drainage and Building Act 1974					
Land Conservation Act 1960	Scheduled Waste Regulation 2005					
Industrial Effluent Regulation 2009	Sewerage Services Act 1993					
Sewage Regulations 2009	Protection of Wildlife Act 1972					
Clean Air Regulations 2014	Drainage Work Ordinance 1954					
Environmental Impact Assessment (Prescribed Activities) Order 2015	Water Enactment (1935)					

We made it mandatory for contractors who were awarded projects in FY2020 to submit a Safety, Health and Environmental ("SHE") Plan prior to the commencement of work. The SHE Plan must contain the project plans and preventive measures, such as waste segregation and storage or COVID-19 related procedures, during the construction phase.

ENERGY EFFICIENCY [102-48, 302-1, 302-3, 302-4]

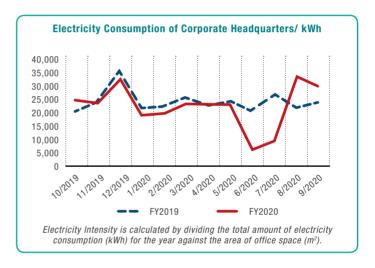

Our focus on energy efficiency is towards managing electricity consumption, especially in our corporate headquarters and sales galleries. The Group have taken the following approach:

- 1. Regularly send out email reminders on electricity conservation at the office, especially before a long holiday period.
- 2. Notifications regarding electricity saving measures have been distributed around the office to encourage environmental-friendly behaviour among employees.

Electricity Consumption

Since FY2019, Sunsuria has taken the initiative to monitor electricity consumption at our corporate headquarters and the Celebration Centre Sales Gallery. We have extended our electricity monitoring efforts in FY2020 to include Sunsuria Forum.

The electricity intensity at Sunsuria's corporate headquarters in FY2019 (the baseline year) was 113.98 kWh/m².² The electricity intensity for FY2020 was approximately 104.71 kWh/m². The reduction in electricity intensity is due to the effectiveness of our effort to save electricity and reduced operations during the MCO.

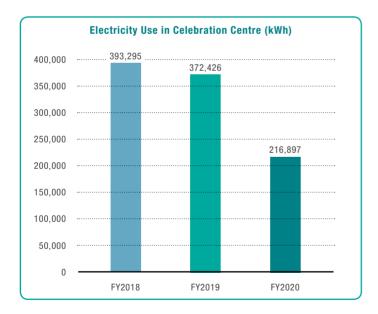

We also monitored the electricity consumption of our sales gallery, the Celebration Centre which recorded 216,897 kWh, a reduction of approximately 42% from FY2019 (372,426 kWh). As part of our energy reduction initiatives, we have installed solar panels on the roofs of the Celebration Centre sales gallery. Since its installation in October 2019, we produced 123,476 kWh of renewable energy in total from solar energy.

² The electricity intensity for FY2019 is amended from 11.8 kWh/m2 to 113.98 kWh/m2 due to changes in calculation methodology.

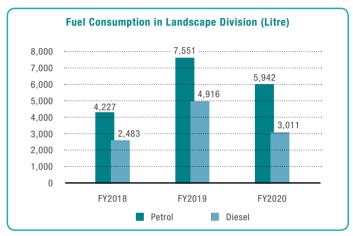

Sunsuria has plans to increase its reliance on renewable energy by expanding the existing solar panels progressively so that eventually Celebration Centre will utilise only solar energy for its operations.

We recorded the electricity intensity of Sunsuria Forum for this reporting period and it was 219.52kWh/m². We will continue monitoring the electricity consumption for future reference.

Fuel Consumption

The Group has recorded the petrol and diesel consumption of the Landscape and Nursery division's business operations to transport the materials required for greenery maintenance around our projects. We will continue our monitoring efforts to understand our environmental footprint within this division.

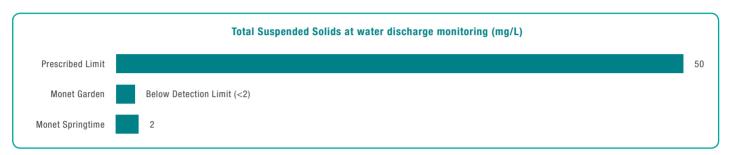

EFFLUENT AND WASTE MANAGEMENT [306-3, 306-4, 306-5]

The proper disposal of construction waste is important to regulate the environmental impact of our operations. Solid waste generated is categorised into scheduled waste and non-scheduled waste. In compliance with the Environmental Quality Regulation 2005, scheduled waste is collected by a licensed contractor and transported to a certified facility for disposal. In FY2020, the non-scheduled waste collected from construction sites weighed 83 tons, of which 80 was construction waste and the remaining 3 was domestic waste. These wastes are also collected by appointed licensed collectors for proper disposal.

The Group also strives to reuse and recycle waste, especially from construction sites. Sunsuria sent approximately 40 tons of rebar waste to scrap metal collectors for recycling in this reporting period. This marked an increase of 2.5 tons since FY2019.

Waste reduction is practised at the three (3) restaurants by avoiding overstocking of ingredients and proper storage facilities to prevent spoilage.

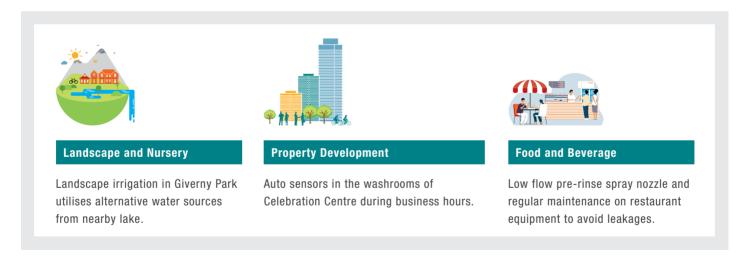

We conducted silt trap monitoring for our water discharges at two of our project sites: Monet Springtime and Monet Garden in FY2020. The total suspended solids ("TSS") were monitored in accordance with Environmental Quality (Industrial Effluent) Regulations 2009. Results from the analysis showed that TSS was below the prescribed limit stipulated by the regulations.

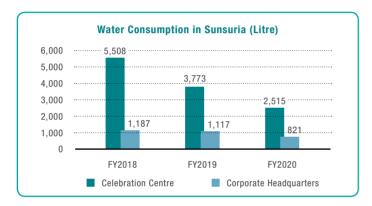

In the reporting period we have had zero incidents of non-compliance in matters relating to solid waste and effluent.

WATER CONSERVATION [303-5]

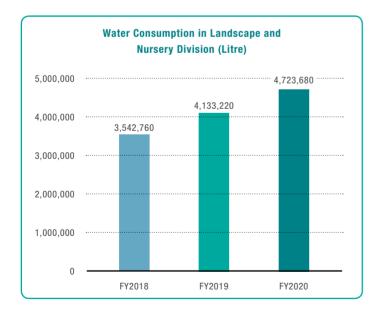

Sunsuria has taken the following measures to reduce water consumption across the different business divisions in FY2020.

At our corporate headquarters and the Celebration Centre sales gallery, the water consumption pattern indicates a downward trend since FY2018 partly due to water saving measures and partly due to reduced operations during the MCO. The higher consumption in Celebration Centre is due to more water intensive business operations i.e. maintaining greenery and water features.

However, among our divisions, the Landscape and Nursery division has shown consistent increase in water consumption since FY2018. This reflects an increase in green landscaping within the projects, especially Sunsuria City.

GREEN BUILDING INITIATIVES

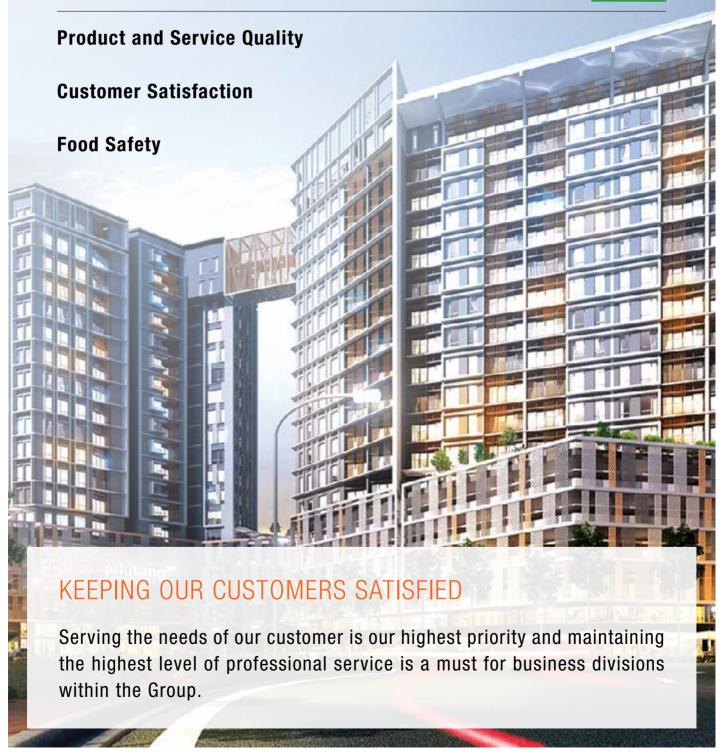

Green buildings with eco-friendly features have become increasingly prominent in our property portfolio. In FY2020, the Group implemented the following 'green' features in respective projects in order to reduce the projects' overall environmental footprint.

- Monet Springtime & Garden: using starken block and panel with eco-friendly product labelling.
- 2. Bell Suites: Natural ventilation and lighting using concrete vent block wall in the lobby area.
- 3. Terrace Houses: North-South orientation to avoid direct sunlight and reduce room temperature inside the unit.
- Tangerine Suites: North-South orientation to avoid direct sunlight and reduce room temperature inside the unit and eco-friendly waterproof & adhesives during construction.
- 5. Forum 2: Rainwater harvesting tanks for landscape irrigation.

PRODUCT AND SERVICE QUALITY [416-1]

The Group has a Standard Manual for Physical Product Quality Workmanship that guides employees on quality excellence. As per the Manual, we perform rigorous quality assessments across all project stages, from planning to project handover. This allows our inspection team to ensure projects are built according to specifications. With the implementation of the e-Inspection System in FY2020, our Site Inspectors utilises a web-based application to perform their duties efficiently.

The Construction Industry Development Board ("CIDB") requires an evaluation of our workmanship by an independent assessor to ensure the delivery of quality products to our customer using QLASSIC (Quality Assessment System in Construction). For the reporting period, Sunsuria's Bell Suites received a QLASSIC score of 74%, 6 points short of the KPI (80%). The Olive project however, received 83% in our QLASSIC score and was awarded the High QLASSIC Achievement for High Rise Residential Development by CIDB Malaysia.

CUSTOMER SATISFACTION

The Group strives to meet the expectations of its customers through the provision of quality products and services. Gathering customer feedback is critical to understand the areas we need to focus on for improvement. We collect information at three stages of a project:

Pre-Sales Survey Conducted before a sale is finalised to understand the needs of potential customers and what Sunsuria can offer to fulfil those needs. Key criteria: sales experience and marketing support. Post-Sales Survey Conducted after the sale of properties to assess the handover experience for the customer. Key criteria: customer service, quality of facilities and personnel, product designs. Post Project Handover Conducted after the completion of project construction and after project management is handed over to another division. Key criteria: customer service, quality of facilities, and

Our KPI for the customer service index is 75% across all three stages. In FY2020, Sunsuria achieved index scores of 86.84%, 89.7% and 83.97% for the pre-sales (FY2020 average), post-sales (Monet Springtime, Tangerine and Forum Soho) and post-project (Bell Suites) stages respectively, effectively surpassing our target. Our pre-delivery inspection team and customer experience team combined forces to further increase the awareness and the effectiveness of quality control and this has notably increased customer satisfaction.

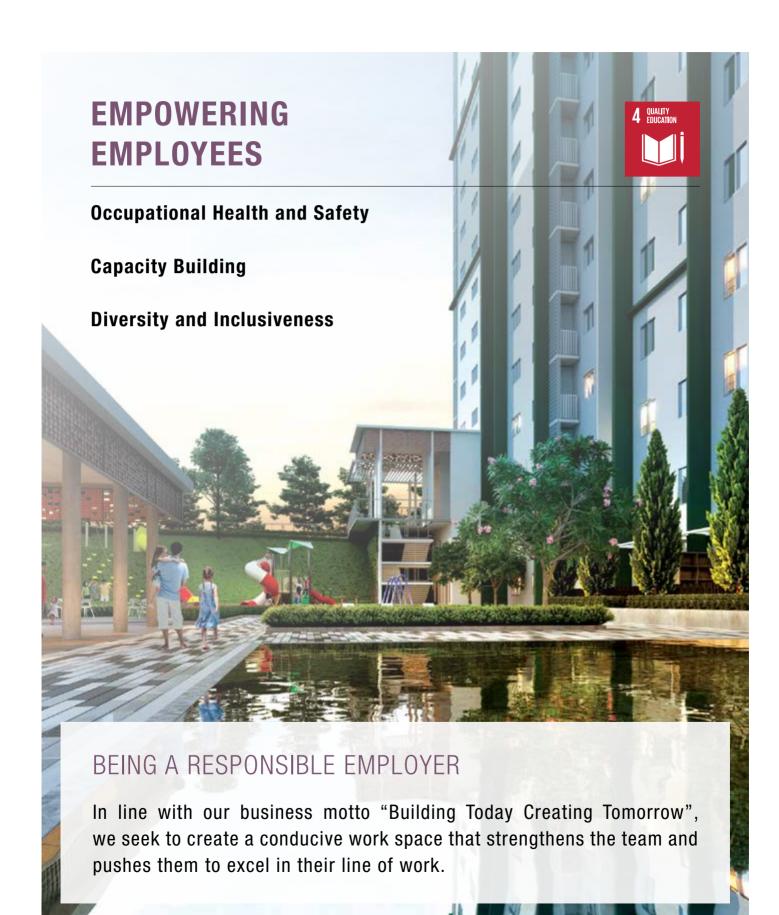

Across our F&B division, we have measures to gauge customer satisfaction. We conducted surveys at the restaurants and received feedback on our online platform (Facebook and Grab). We improved our performance compared to FY2019 and maintained a consistent satisfaction of approximately 80% for our three (3) restaurants, Double Happiness, Artelier Bistro and Ming Yang, in FY2020.

FOOD SAFETY [416-1, 416-2]

Our F&B division maintains high standards in restaurant and food hygiene, and complies with the Food Hygiene Regulation 2009. Our restaurants have maintained a Grade A rating in Restaurant Hygiene Standards, by demonstrating proper food handling and cleanliness. Every staff member of the F&B division is required to attend training on food handling standards in accordance to the HACCP (Hazard Analysis and Critical Control Point) Standard. There were no incidents relating to food safety reported in FY2020.

OCCUPATIONAL HEALTH AND SAFETY ("OHS") [403-1, 403-5, 403-9]

We are looking to continuously improve our OHS management system and assess its effectiveness to reduce any potential hazards at the work site. The Group continues to comply with OHS-related standards and regulations with no changes were made to the OHS committee in FY2020.

Quality Assurance & Quality Control ("QAQC") personnel monitoring OHS implementation within Sunsuria attended the 'OHS Management in Construction' training conducted by an external training provider (ICM Training and Consultant). The training covered the following topics:

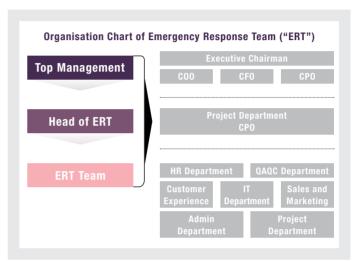

Sunsuria Asas Sdn Bhd, our construction division, updated its Safety, Health & Environment ("SHE") Plan to include a Hazard Identification, Risk Assessment and Risk Control ("HIRARC") in FY2020 to better manage construction hazards. Due to our efforts which include updating the SHE Plan and mandating safety training, we achieved zero lost time injuries in approximately 1.27 million man-hours on site, resulting in zero LTIFR.

COVID-19 RESPONSE [403-2, 403-4, 403-6]

Sunsuria established the Crisis Management Committee comprising Sunsuria's Executive Chairman, Chief Operating Officer ("COO"), Chief Project Officer ("CPO") and Chief Financial Officer ("CFO") in December 2019 to identify incidents with serious repercussions to business operations and propose a corresponding action plan.

In light of the COVID-19 pandemic, the Committee set up the Emergency Response Team ("ERT") in March 2020 to address any critical issue caused by the pandemic.

The pandemic has profoundly changed Sunsuria's OHS management approach across the organisation. New Standard Operating Procedures were put in place as instructed by the Ministry of Health. COVID-19 testing was mandatory for all site workers before being allowed to resume work. We also conduct fortnightly review of COVID-19 compliance for all our project sites.

Sunsuria circulated the Safety Prevention Handling Flowchart Rev.1 and Sunsuria RMCO SOP Rev.3 as guidelines for employee's conduct in the 'new normal'. New RMCO procedures have also been implemented across our F&B division which we strictly adhere to. Restaurant furniture and utensils are regularly disinfected and all dine-in customers must have their temperature measured below 37.3°C before being allowed into the restaurant. They must also register on the MySejahtera application to facilitate potential contact tracing.

CAPACITY BUILDING [404-1, 404-2, 404-3]

Our employees are the strength of the organisation. We provide them with career development opportunities, as well as organise employee engagement programmes to promote healthy work relations. We also provide annual performance appraisal for all employees in FY2020.

EMPLOYEE TRAINING

The total training hours for all Sunsuria employees was recorded at 1,610.5 hours, averaging approximately 11.18 hours per employee in this reporting period. The graphs below illustrate the distribution in training hours by gender and employment category in FY2020. Lower average training hours were recorded in FY2020 due to cancellation of public events during the MCO as well as social distance practices.

During the MCO, we promoted online educational videos and simple health tips throughout the organisation. A series of external training programmes were also conducted on a wide range of topics, including management in the post-pandemic world. We invest in our employees' professional development as it is vital for talent retention and for business sustainability.

EMPLOYEE ENGAGEMENT

Our employee engagement programmes are organised by the Sunsuria Recreational Club with the support of the Human Resources Department. Most of the engagement programmes were conducted online during the MCO period to ensure our employees were leading a healthy lifestyle while being confined in their homes. Some of the programmes organised were:

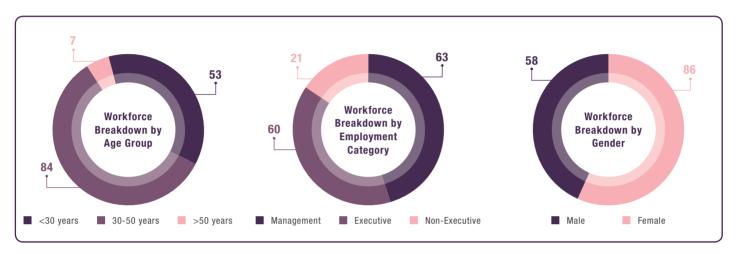

1	. Plank exercise challenge	4.	SRC 21+4 Health Challenge (21 Days of Healthy Meals + 4 days of workout completion)
2	2. Zumba Session	5.	Breakfast Bonding
3	3. Dalgona Coffee Contest	6	Valentines Celebration

DIVERSITY AND INCLUSIVENESS [401-1, 401-2, 401-3, 405-1]

Our recruitment and selection processes are fair, objective and without discrimination. Bringing in people with a variety of skills and experiences from different cultural background meets our vision of being a progressive company. The graphs below highlight the breakdown of Sunsuria's total workforce of 144 employees in FY2020.

The benefits that we provide to Sunsuria employees in FY2020 are the illustrated below.

Every employee who is entitled to parental leave (Total 8 female employees and 6 male employees) during the reporting period remained employed with the Group 12 months after their return to work. The Group's turnover and new hires rate for FY2020 were 29.17% and 22.92% respectively, as compared to 21.0% and 24.0% respectively in FY2019. The higher turnover rates and lower new hire rates are attributed to the slowdown in the Malaysian economy due to the pandemic.

The Board of Directors of Sunsuria Berhad ("Sunsuria" or "Company") recognises the importance of maintaining good corporate governance practices within Sunsuria and its subsidiary companies ("Sunsuria Group" or the "Group") as it is the Board's fundamental responsibility to protect and enhance long-term shareholder value and the financial performance of Sunsuria Group, whilst taking into account the interest of all stakeholders.

The Board is guided by the principles and recommendations of the Malaysian Code on Corporate Governance ("MCCG"), which was released on 26 April 2017, in implementing its governance system and ensuring compliance with the Main Market Listing Requirements ("Listing Requirements") of Bursa Malaysia Securities Berhad ("Bursa Securities").

This statement is complemented with a Corporate Governance Report ("CG Report") based on a prescribed format pursuant to paragraph 15.25 of the Listing Requirements of Bursa Securities. The CG Report is available on the Company's website www.sunsuria.com as well as via announcement on the website of Bursa Securities.

DATUK SIMON KWAN HOONG WAI Chief Operating Officer

LEE SWEE KHENGChief Financial Officer

Tan Sri Ter is assisted by the Chief Operating Officer and the Chief Financial Officer for implementing the policies and decisions of the Board and overseeing the day-to-day operations of the Group. The Management's performance under the leadership of the Executive Chairman is monitored by the Board through quarterly status report which is tabled to the Board and includes a comprehensive summary of the Group's operating drivers and financial performance during each reporting period.

As a testament to the Board's commitment, Sunsuria garnered the following awards in year 2020:

Forbes Asia's 2020 'Best Under A Billion' list of the 200 top-performing small and mid-sized listed companies in the Asia-Pacific region with sales under US\$1 billion in year 2020

LEADERSHIP AND EFFECTIVENESS

ROLES AND RESPONSIBILITIES

The Board is responsible for the effective leadership and long-term success of the Group. The Board has formally adopted a Board Charter, which outlines the roles and responsibilities of the Board and those which it delegates to the various Board Committees. The Board Charter is available at the Company's website at www.sunsuria.com.

The Board leads the Group and plays a strategic role for the oversight and overall management of the Company. The Board's key responsibilities include reviewing and approving strategic an annual business plan and budget, overseeing the conduct of the Company's business, investment proposals, compliance and accountability systems, core values and corporate governance practices of the Group to ensure that the Group operates with integrity and in compliance with the rules and regulations.

In spite of the compact Board size, the Board is confident that there are sufficient experienced and independent—minded Directors on the Board to provide sufficient check and balance. Given that there are three experienced Independent Directors representing more than 50% of the Board, the Board collectively would be able to function independently of management. This allows for effective oversight of the management as well as to support objective and independent deliberation, review and decision making.

For the financial year ended 30 September 2020, the Board met six (6) times to discuss the issues on the Group's financial performance, significant investments, corporate development, strategy and business plan and other matters reserved for the decision by the Board.

Directors' commitment, resources and time allocated to the Company are evident from the attendance records, where the Directors attended all Board Meetings held during the financial year ended 30 September 2020 well exceeding the threshold of Paragraph 15.05 of the MMLR which requires none of the Directors to be absent for more than 50% of the total Board Meetings held during the financial year.

All Directors are given ample notice together with the formal agendas for each Board and Committee meeting prior to each meeting so that the Directors are accorded sufficient time to appraise the proposals or information. While the comprehensive set of meeting papers, consisting of the minutes of the previous meeting, management reports and proposals are forwarded to the Directors in sufficient time, prior to the meetings.

All proceedings of the Board meetings were minuted. The minutes of Board meetings are circulated to all Directors for their perusal and comments. The Directors may request for further clarification or raise comments on the minutes prior to the minutes being confirmed as a correct record of the proceedings of the Board at the subsequent meeting. The signed minutes of each Board and Board Committees Meeting are properly kept by the Company Secretaries and the Company Secretaries are entrusted to organise and attend all Board Meetings to ensure proper records of the proceedings.

BOARD FOCUS AREAS

- Reviewing and approving the Company's annual business plan, policies and budget;
- Overseeing the conduct of the Company's businesses, investment proposals, compliance and accountability systems, core values and corporate governance practices of the Group to ensure that the Group operates with integrity and in compliance with the rules and regulations:
- Together with Senior Management, promoted good corporate governance culture within the Group, whilst reinforcing ethical, prudent and professional behaviour;
- Ensure a sound risk management framework including the risk of corporate liability;
- Ensure the adequacy and integrity of the Company's internal control system;
- Ensure effective communication with stakeholders; and
- Ensure the integrity of the Company's financial and non-financial reporting.

BOARD COMMITTEES

In order to ensure the effective discharge of its functions and responsibilities, the Board has delegated certain responsibilities of the Board to the Board Committees and the Executive Chairman to assist it in carrying out its responsibilities and functions. These Committees operate within their own defined Terms of Reference ("TOR") approved by the Board, and report to the Board on matters considered and their recommendations thereon. The ultimate responsibility for the final decision on all matters however, lies with the Board.

COMPANY SECRETARIES

The Board is supported by suitably qualified and competent Company Secretaries who are members of the relevant professional bodies. The appointment of Company Secretaries is based on the capability and proficiency determined by the Board. All members of the Board, whether as a whole or in their individual capacity, have access to the advice and services of the Company Secretaries on all matters relating to the Group to assist them in the furtherance of their duties.

The Company Secretaries also assist the Board in organising and facilitating the induction programme or on-boarding session for newly appointed Directors and making arrangements for their professional development and training. The Company Secretaries keep abreast of the evolving regulatory changes and developments in corporate governance through continuous training as they play an important role in advising the Board on updates relating to new statutory and relevant regulatory requirements.

ACCESS TO INFORMATION

All Directors have unrestricted direct access to the advices and services of the management representatives for obtaining the relevant information to facilitate the discharge of their duties. As and when required, Directors are also able to seek advice from independent professional advisers whenever necessary at the Company's expense, to enable the Board and committee members to discharge their duties with adequate knowledge on the matters being deliberated.

COMMITMENT TO INTEGRITY

CODE OF CONDUCT AND ETHICS

In an effort to promote and maintain high ethical standards at all times, the Board had on 28 August 2019 adopted a Directors' Code of Conduct and Ethics which covers, amongst others, the areas of transparency, integrity, accountability, conflicts of interest, anti-corruption/bribery, confidentiality, insider trading, anti-money laundering, proper use of the Company's assets, and compliance with laws, rules and regulations. The adoption of the Code aims to promote corporate culture which engenders ethical conduct that permeates throughout the Group.

Employees of the Group are guided by the Company's Code of Conduct and Ethics which comprehensively listed in the Company's Employee Handbook and provides the ethical framework to guide actions and behaviours of all Directors and its employees while at work. The Employee Handbook is accessible through the corporate intranet.

The Directors' Code of Conduct and Ethics is published in the Company's website at www.sunsuria.com.

WHISTLEBLOWING

The Company had since 2018 in place a Whistleblowing Policy, with the objective of providing a mechanism for all level of employees and stakeholders of the Group to report concerns about any suspected wrongdoing, inappropriate behaviour or misconduct relating to fraud, corrupt practices and/or abuse for management action.

Details of the Whistleblowing Policy and Procedures are set out in the CG Report, which is available at the Company's website at www.sunsuria.com.

ANTI-BRIBERY AND CORRUPTION

In compliance with the recent amendment of Section 17A of the Malaysian Anti-Corruption Commission Act 2009 and guided by the principles of the Ministerial Guidelines and Paragraph 15.29 of the MMLR of Bursa Securities in relation to anti-bribery, the Board has approved on 30 September 2019 its Anti-Bribery and Corruption Policy and Procedures ("ABAC"). The Company has adopted the ABAC in order to achieve and maintain the highest standard of integrity and work ethics in the conduct of its business and operations The ABAC provides guidance to all employees and associates of Sunsuria Group relating to specific acts of bribery and corruption and also to related matters such as proper reporting and accounting.

The Anti-Bribery and Corruption Policy and Procedures is published in the Company's website at www.sunsuria.com.

NOMINATION AND REMUNERATION COMMITTEE

The primary functions of the NRC are as follows:

- to oversee the selection and assessment of directors and to ensure that Board composition meets the needs of Sunsuria Berhad;
- to propose new nominees to the Board of Directors of Sunsuria and any Committee of the Board;
- · to assess Directors on an ongoing basis;
- to recommend to the Board the remuneration of the Executive Directors in all its forms, drawing from outside advice as necessary; and
- to assist the Board in determining the policy and structure for the remuneration of Directors and senior management of Sunsuria Group.

Committee Focus Area

- The effectiveness of the size, mix and the composition of the Board and Board Committees;
- The contribution of individual Director in relation to the effective decision-making of the Board;
- The independence of Independent Directors;
- The re-nomination of the Director who was due for retirement at the Company's Annual General Meeting;
- The salary increment, performance bonus KPIs for Executive Director;
- The Directors' fees for Non-Executive Directors payable from 12 June 2020 to the next Annual General Meeting in March 2021, on a monthly basis, subject to the shareholders' approval; and
- Assessed and evaluated the training needs of the Directors.

LEADERSHIP AND EFFECTIVENESS (CONT'D)

FAIR REMUNERATION

The Board through the NRC has established a Directors and Senior Management Remuneration Policy to assist the Group in attracting, retaining and motivating its Directors and Senior Management in order to run the Group successfully.

The remuneration of Executive Chairman and Senior Management are structured to link rewards to the Group and individual performance. As for Non-Executive Directors, the level of remuneration reflects mainly on their experience, qualification and competence of the Non-Executive Director concerned.

The Non-Executive Directors are remunerated with Directors' fees which are subject to shareholders' approval at the AGM annually in accordance with the Clause 121 of the Company's Constitution. In recommending the proposed Directors' fees, the Remuneration Committee takes into consideration the qualification, duty and responsibility, and contribution required from a Director in view of the Group's complexity, and also the market rate among the industry.

In the forthcoming AGM, the Company would be seeking the shareholders' approval for the Directors' fees payable to Non-Executive Directors for the period from the 52nd AGM until the next AGM in year 2022. The Proposed fees remain unchanged and would continue paying on a monthly basis instead of in arrears. The Board opined that it is just and equitable for the Non-Executive Directors to be paid such payment on such basis upon them discharging their responsibilities and rendering their services to the Company.

The Non-Executive Directors who are shareholders of the Company will abstain from voting the Resolution concerning the Proposed Directors' Fees payment during the 52nd AGM.

The details of the Remuneration of the Directors of the Company comprising remuneration received from the Company during the FY2020 are as follows and none of the remuneration was paid by the subsidiaries of Sunsuria:

BOARD EVALUATION

The Board, through the NRC, conducts an annual review of the structure and composition of the Board, competency and time commitment of the Board as well as the independence of the Independent Directors. The Board also undertakes an annual assessment of the Board effectiveness, the Board Committees and the individual Directors by way of self and peer assessment. Based on the results of the assessment made, the Board was satisfied with the Board effectiveness, the performance of the board committees and individual directors. The evaluation is especially important in deciding whether a Director who is subject to re-election can be recommended accordingly at the next AGM.

Independence

The Board through the NRC undertakes the independent assessment of all its Independent Directors of the Company which was carried out as part of the board assessment annually. The NRC and the Board reviewed the independence assessment results and are satisfied that all the Independent Directors fulfilled the criteria of "Independence" as prescribed under the Listing Requirements. They opined that the Independent Directors continue to remain objective and independent in expressing their respective views and in participating in deliberations and decision-making of the Board and Board Committees.

The Board is satisfied with the level of time commitment given by the Directors towards fulfilling their roles and responsibilities. All Directors have given their full commitment to the Board meeting by attending all of the Board and Board Committees meetings as shown in the details of attendance of Directors at the meetings held during the financial year.

ON GOING PROFESSIONAL TRAINING

The Board recognises that Directors' training is an ongoing process to ensure that Directors keep themselves abreast of the latest developments in areas related to their duties and to ensure that they are equipped with the necessary skills and knowledge to meet the challenges faced by the Board. The Board has delegated the role of reviewing the training and development needs of the Directors to the NRC.

All Directors are provided with ongoing professional development and training opportunities to enable them to develop and maintain their skills and knowledge. Directors are also encouraged to personally undertake appropriate training and refresher courses as appropriate to maintain the skills required to discharge their obligations to the Group.

RE-ELECTION OF DIRECTORS

The NRC is responsible for recommending to the Board, Directors who are retiring and are standing for re-election at the AGM pursuant to and in accordance with the Constitution of Sunsuria.

In accordance with the Clause 114 of the Company's Constitution, one-third of the Directors for the time being or, if their number is not a multiple of three (3), the number nearest to one-third shall retire from office and be eligible for re-election at each Annual General Meeting. All Directors are subjected to retirement by rotation at least once every three (3) years.

The NRC is also responsible for recommending to the Board those Directors who are eligible to stand for re-election/re-appointment.

Based on the office period of the Directors since their last election and upon recommendation of the NRC, the Board is proposing the re-election of Tan Sri Datuk Ter Leong Yap, who is due for retirement by rotation pursuant to Clause 114 of the Company's Constitution, being eligible has offered himself for re-election.

To assist the shareholders in their decision, sufficient information such as personal profile of the Director standing for re-election is disclosed in the Profile of Directors of this Annual Report. The details of his interest in the securities of the Company are set out in the Analysis of Shareholdings of this Annual Report.

EFFECTIVE AUDIT & RISK MANAGEMENT

AUDIT COMMITTEE

The AC comprises three (3) members, all of whom are Independent Non-Executive Director. The members of the AC are Ms Tan Pei Geok as Chairman, Dato' Quek Ngee Meng and Datin Loa Bee Ha. The Chairman of the AC is not the Chairman of the Board. This meets the requirements of paragraph 15.09(1)(a) and (b) of the Main Market Listing Requirements and Practice 8.1 of the MCCG.

Collectively, the members of the AC have a wide range of relevant skills, knowledge and experience in discharging their duties. Additionally, the Chairman, Ms Tan Pei Geok and the Member of the AC, Datin Loa Bee Ha have vast experience and skills in accounting and finance as well as other fields of expertise, and are highly-qualified to review the accuracy of the Group's financial reporting prior to recommending the same to the Board for approvals, both are the member of the Malaysian Institute of Accountants.

The composition, authority as well as the duties and responsibilities of the AC are set out under its TOR approved by the Board.

The performance of the AC for the FY2020 was evaluated and based on the results of the evaluation, the Board was generally satisfied that the AC collectively and its members individually, had discharged their functions, duties and responsibilities effectively in accordance with the TOR of the AC.

A full AC report enumerating summary of activities of the AC during the financial year is set out in the AC Report.

RELATIONSHIP WITH EXTERNAL AUDITORS

The AC has in place policies and procedures to review and assess the appointment or re-appointment of the external auditors in respect of their suitability, objectivity and independence. The AC in this regard assesses and reviews annually among others, the adequacy of their experience and resources, their audit engagements and the experience of the engagement partners and staff in accordance with the requirements of the Group.

The AC also meets with the external auditors without the presence of the Management to enable the AC to discuss matters privately with them. During the financial period under review, the AC met the external auditors twice without the presence of the Management.

Aside from the provision of statutory services, the external auditors provide non-audit services to the Group. The proposed fees for the non-audit services are reviewed by the AC and approved by the Board. In its review, the AC ensures that the independence and objectivity of the external auditors are not compromised. In addition, the AC must be satisfied that there is no element of conflict of interest and the fees chargeable are within the allowable threshold set.

The AC was satisfied with the quality of audit, performance, competency and sufficient resources provided to the Group by the external auditors during the financial period under review. The AC was also satisfied that the provision of the non-audit services by the external auditors to the Group did not impair their objectivity and independence as external auditors of Sunsuria.

Having considered the outcome of the annual assessment of the external auditors, the Board approved the recommendation for the shareholders' approval to be sought at the forthcoming AGM on their re-appointment as external auditors of the Group.

INTERNAL AUDIT FUNCTION

The Group has outsourced its internal audit function to external consultants, which reports directly to the Committee. The Internal Auditors are able to undertake independent and systematic reviews of the systems of internal controls and procedures of operating units within the group so as to provide reasonable assurance that such systems continue to operate satisfactorily, effectively and in compliance to the Group's established policies and procedures.

RISK MANAGEMENT AND INTERNAL CONTROL FRAMEWORK

The Board is fully aware of its overall responsibility of continuously maintaining a sound system of internal control which covers not only financial controls but also operational and compliance controls as well as risk management, and the need to review its effectiveness regularly in order to safeguard shareholders' investment and the Company's assets.

To assist the Board in maintaining a sound system of internal control, the Group has engaged internal audit and risk management consultants, who report regularly to the RMC and the AC, which in turn report to the Board regarding the adequacy and integrity of the system of internal control. The implementation and maintenance of the risk management process to help the Board in identifying, evaluating and managing the risk is carried out by the Risk Management Committee of the Group.

The Statement on Risk Management & Internal Control which provides an overview of the Group's state of internal control is set out in pages 76 to 82 of this Annual Report.

INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIPS WITH STAKEHOLDERS

COMMUNICATION WITH STAKEHOLDERS

The Board acknowledges the importance of being accountable to the shareholders and the investors via a direct and effective line of communication. As such, the Group always ensures the timely release of quarterly financial results, audited financial statements, corporate developments and announcements of the Group via the BURSA LINK, the Company's annual reports and other circulars to shareholders and where appropriate, ad hoc press statements which serve as the principal channel in keeping the shareholders and the investing public informed of the Group's major developments and overviews of financial performance and progress throughout the year.

The communication channels used in the Company's engagement with stakeholders includes:

- (a) Various disclosures and announcements to Bursa Securities including quarterly financial results;
- (b) Press releases and announcements to Bursa Securities and to the media;
- (c) The Company's Annual Report: and
- (d) Dialogues and presentations at general meetings to provide overview and clear rationale with regards to the proposals tabled for approval by shareholders.

CONDUCT OF GENERAL MEETINGS

The Company's General meetings serve as principal forums for shareholders to engage directly with the directors and senior management. It also provides the opportunity for shareholders to raise questions pertaining to issues related to the Annual Report, Audited Financial Statements, corporate developments, resolutions being proposed and the business of the Group. Shareholders are encouraged to attend AGM and to participate in the question-and-answer sessions on the resolutions being proposed or on the Group's operations in general. Shareholders who are unable to attend the meetings are allowed to appoint proxies to attend and vote on their behalf in accordance with the Company's Constitution.

In 2020, the Company served notice of its Fifty-First Annual General Meeting held on 19 March 2020 at least 28 days before the meeting, well in advance of the 21-day requirements under the Companies Act 2016 and the Main Market Listing Requirements of Bursa Securities. The additional time given to the shareholders provides them with sufficient time to scrutinise the Annual Report 2019 and to make necessary arrangements to attend the meeting. The Company also distributed together with the Notice of Annual General Meeting, information on administrative details such as details of the meeting, shareholders' entitlement to attend the meeting, their right to appoint proxy and information as who may act as a proxy, etc.

On 11 March 2020, the World Health Organisation declared the Coronavirus ("COVID-19") outbreak as a pandemic in recognition of its rapid spread across the globe. On 16 March 2020, the Malaysian Government had imposed the Movement Control Order ("MCO") starting from 18 March 2020 to curb the spread of the COVID-19 outbreak in Malaysia. The COVID-19 outbreak also resulted in travel and movement restriction, lockdown and other precautionary measures imposed in various countries. Hence, the 51st AGM scheduled on 19 March 2020 was postponed to 12 June 2020 and was conducted fully virtual through live streaming and online remote voting via Remote Participation and Voting facilities.

All Board members had ensured their attendance in the 51st AGM and the chairman of the respective Board Committees with Management attended to questions raised pertaining to their duties. The External Auditors also attended the 51st AGM and had provide information to the Management clarifications particularly relating to the financial statements.

Pursuant to the Paragraph 8.29A(1) of the Listing Requirements, the Company is required to ensure that any resolutions set out in the notice of general meetings are voted by poll.

At the AGM of the Company held on 12 June 2020, all resolutions were decided by a poll and the votes received in respect of each resolution were notified to the Bursa Securities on the same date as the meeting was held. The poll voting was conducted via electronic means and the results of the voting were instantly displayed on the screen. The Company has appointed an independent external scrutineer to validate all the votes at the said general meeting.

KEY FOCUS AREAS AND FUTURE PRIORITIES

The Board is satisfied that the Group has maintained high standards of corporate governance and strived to achieve the highest level of integrity and ethical standard, in all its business dealings.

Moving forward, the Board will continue to operationalise and improve the Company's corporate governance practices and instil a risk and governance awareness culture and mindset throughout the organisation in the best interest of all stakeholders.

This Statement is made in accordance with the resolution of the Board of Directors dated 30 November 2020.

AUDIT COMMITTEE REPORT

The cost incurred for the Internal Audit function of the Group in respect of the FY2020 was RM82,233 (2019: RM105,000).

This Audit Committee Report is made in accordance with the resolution of the Board of Directors dated 30 November 2020.

The Board of Sunsuria Berhad is committed to continuously improve the Group's risk management and internal control system and is pleased to present the following Statement on Risk Management & Internal Control for the financial year ended 30 September 2020. This statement is made pursuant to Paragraph 15.26 (b) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (the "Listing Requirement") and in accordance with the Principles as stipulated in the Malaysian Code on Corporate Governance 2017 ("the Code") and the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers ("the Guidelines"). This Statement outlines the nature and scope of risk management and internal control of the Group and covers all of the Group's operations except for associate companies.

1. THE BOARD'S RESPONSIBILITY

The Board of Directors (the "Board") recognises the importance of sound controls and risk management practices to good corporate governance. The Board acknowledges its overall responsibility in establishing a sound risk management framework and internal control system to safeguard shareholders' investment and the Group's assets.

The Board continually reviews the adequacy and integrity of the Group's risk management and internal control system, which has been embedded in all key aspects of the Group's activities, and its alignment with the Group's business objectives. The Board is equally aware that the risk management framework and internal control system are designed to manage the Group's risks within an acceptable risk appetite, rather than eliminate the risk of failure to achieve the goals and objectives of the Group. In this regard, the risk management framework and internal control system can only provide reasonable assurance, and not absolute assurance, against material misstatement of financial information and records or against financial losses or fraud.

The Board appointed a Risk Management Committee ("RMC") to oversee the risk management processes within the Company and the Group and established a sound risk management framework, policies and internal risk control system.

2. RISK MANAGEMENT COMMITTEE

The RMC was established to uphold risk oversight within the Group. The RMC is chaired by an Independent Non-Executive Director, who is neither the Chairman of the Board nor Chairman of the Audit Committee.

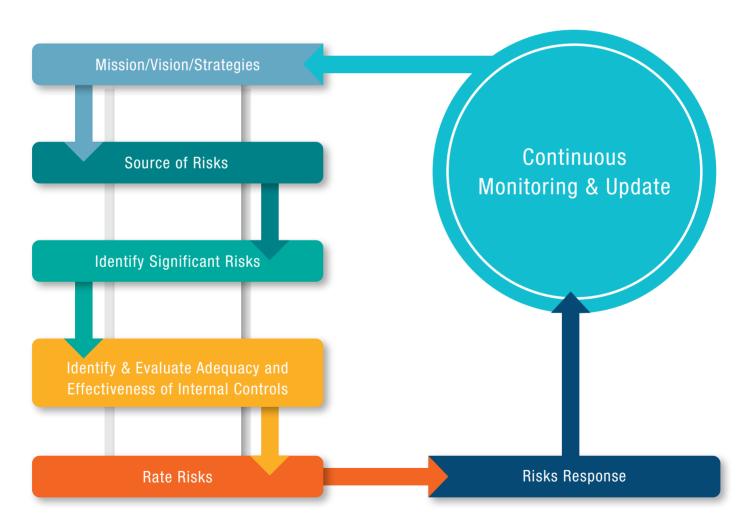

Roles and responsibilities of the RMC include the following:

- a. Develop and recommend the Group's risk framework and policies that are aligned with its strategic business objectives;
- b. Communicate the Board's risk policies, objectives, responsibilities, and reporting lines to all employees across the Group;
- c. Identify and communicate to the Board on significant risks that are critical and of high risks both present and potential that the Group may face, their impact and consequences and the management action plans to manage and mitigate these risks;
- d. Perform risk oversight and review risk profiles of the Company and the Group as well as regularly review and update the business units' risk management processes;
- e. Provide guidance to the business units on the Group's and business units' risk appetite and capacity, and other criteria which, when exceeded, trigger an obligation to report upwards to the Board;
- f. To keep under review the effectiveness of the Group's internal control and risk management systems and review the statements to be included in the Annual Report concerning internal controls and risk management; and
- g. All other risk management matters delegated by the Board.

3. RISK MANAGEMENT FRAMEWORK

The Group has adopted a Risk Management Framework ("Framework") that outlines policies and on-going processes for identifying, evaluating, managing, monitoring and communicating the risks faced by the Group throughout the period under review. It places importance of balancing between risk and reward in making strategic business decisions, managing both existing and potential risks with the objective of protecting key stakeholders' interest, and ensuring compliance with statutory and legal requirements. The Framework sets the risk context and categories such as industry/market, financial, operations, compliance and people in relation to the Group's business activities.

The risk assessment methodology adopted by the Group, which is guided by the globally accepted standard for risk management i.e. International Risk Management Standard ISO 31000:2018 is outlined as follows:

Risk Identification and Evaluation Process

Risks associated with the Group's business goals are identified through a series of interviews with key personnel and management of the Group, which are then incorporated into a Key Risk Profile that includes details on the nature of the risk as well as the severity and probability of its occurrence.

The risk identification process includes consideration for both internal and external environmental factors. External environmental factors include political, economic, social, technological, legal and environment changes. Internal factors include changes in key personnel, venturing into new businesses or joint ventures, introduction and implementation of new or revision of existing policies and procedures.

The risks identified are evaluated by examining the impact on the Group if a risk were to occur, as well as the likelihood of its occurrence. The likelihood is rated on a scale of 1 to 5, with 1 indicating that the event is very unlikely to happen and 5 indicating that there is a very high likelihood of the event happening. The impact is also assessed on the scale of 1 to 5, with 1 being insignificant impact and 5 being very significant. The rating takes into consideration the effectiveness of existing controls put in place to manage risks. After the risk assessment has been carried out, the Group will continue to closely monitor the significant risks identified and are rated as critical or high.

Amid the backdrops of the COVID-19 pandemic, the four (4) key risk areas identified in the financial year ended 30 September 2020 in accordance to their potential impact to the Group are:

Regulatory and compliance risk

The Group's operations are subject to guidelines, laws and regulations of local authorities, government bodies and ministries, securities commission and listing requirements.

The changes in laws and regulations may directly and indirectly affect the Group. The Group in keeping abreast with the latest rulings, regulations and guidelines changes need to assess the impact of such changes to on the operations of the Group to ensure its continued compliance.

Operational risk

The Group's operations are exposed to sales, project management and construction related risks.

The Group recognised the importance of delivering quality products and services. The Group adhered to stringent standard operating policies and procedures and carefully select and assess every contractor, supplier, consultant, service provider and vendor that the Group engages. In addition to the above, the Group also emphasizes on the importance of safety requirements and well-being of its stakeholders.

Competition risk

The Group's revenue and profitability are exposed to the risk of uncertainty arising from global and local economic conditions and the challenging property market sector affected by the COVID-19 pandemic.

Recognising this, the Group embraces changes and strives for continuous innovation to remain relevant in the marketplace and creates differentiations to attract market demand. Besides delivering quality products timely, the Group also embarks on initiatives to create vibrancy and footfalls to its development projects to enhance value to its customers and ensure customers' satisfaction.

Feasibility risk

The Group strives to balance between achieving customers' demands over designs and pricing, quality and practicality of its development products while emphasizing on cost optimisation to deliver positive growth to the Group's earnings.

Recognising this, the Group acts with caution in any new business ventures and new launches to deliver long-term value to its stakeholders.

Risk information and treatment plans are captured and updated into a risk register which is maintained by the Business Unit Risk Committee Officer. The information is consolidated to provide an overview of material risks faced by the Group and the associated risk mitigation plans, which are tracked and reviewed.

Risk Adoption and Monitoring Process

All risks identified and assessed are documented in the Group risk assessment report and divisional & operational risk assessment report, whereby risks rated as significant and prioritised in terms of likelihood of the risk occurring and its impact should the risk occur. These reports have been tabled to the RMC on 16 April 2020 and 26 August 2020, respectively. Risk assessment of the Group has been structured on a two-level assessment approach to give the appropriate focus at Group level and divisional & operational level.

Through these mechanisms, risks identified can be managed and monitored on a continual basis, so that the impact of such risks crystalising may be mitigated to avoid any loss or damage to the Group or divisions or business units. However, certain significant risks which are rated critical or high could be due to the business environment it operates in and may not be managed and eliminated by the Group. The Group had formulated risk responses to address threats arising from significant risks to minimise the likelihood of such risks occurring or reducing the impact of such risks. On top of that, the Group also recognises opportunities that may come from certain significant risks and take appropriate actions to capitalise on such opportunities arising from such events.

The internal audit function, on a regular basis, facilitate the identification and assessment of significant risks and the controls put into effect by the management to mitigate the identified significant risks. Together with the management team, the internal audit function shall ascertain if controls are sufficient and effective in mitigating the identified risks.

After due analysis and discussions with the Management Team, the internal audit function may facilitate the revision in risk ratings where applicable, after taking into account the adequacy and effectiveness of internal controls. Through these mechanisms, the Audit Committee can be assured that the significant risks of the Group are regularly reviewed and appropriately managed to an acceptable level.

4. INTERNAL CONTROLS

Key elements of the Group's internal control environment for the financial year ended 30 September 2020 are as follows:

Areas	Control Elements
Areas People Management	 Human Resource Management Employee Handbook Formal performance appraisal result in performance linked recognition and rewards Employee engagement survey Integrity Management An Anti-corruption Framework has been duly approved by the board on 29 April 2020 and since then, adopted across the Group. Under the framework, an anti-bribery and corruption working group had been formed to oversee matters on anti-bribery and corruption. The five (5) key principles of the framework are top level commitment, risk assessment, undertake control measures, systematic review, monitoring and enforcement and lastly, training and communication. An Anti-Bribery and Corruption Policy and Procedures ("ABAC") has been adopted by the Company, duly approved by the Board of Directors. ABAC adopted are in line with Malaysian
	 Anti-Corruption Commission Act 2009. The Group has adopted a zero-tolerance policy against all forms of bribery and corruption. Policy on "no gift and entertainment" has also been adopted whereby, subject only to certain narrow exceptions, Sunsuria employees, directors or agents (executive and non-executive) and family members are prohibited from, directly or indirectly involving in receiving or providing gifts & entertainment. Whistleblowing policy has been established to provide an avenue for employees, associates of the Group and third parties to disclose any concerns about misconduct, wrongdoings, corruption and instances of fraud, waste, and/or abuse in accordance with the procedures as provided under this policy and to provide protection for its employees, associates or third parties who report such allegations.
Process Management	 Quality Management System Clearly defined internal standard operating procedures and policies are easily accessible by all employees via the Company's intranet. Financial Management Annual budgets prepared are subject to management review before being escalated to the Board for approval. Limits of Authority ("LoA") has been established for the Group and its subsidiaries to follow, in their day-to-day operations. The relevance of the LoA is reviewed periodically and as and when necessary.
	The most recent revision of the LoA was carried out in May 2020. Business/Project Management • Weekly operational and sales meetings are held to review and update on performance of every business divisions. Environment, Safety and Health Management • An Occupational Health, Safety and Environment Committee is formed at every construction site.

Technology Management	 Information Security Data security and data protection is very important to ensure access to applications and data is secured from cyber security threats. The Group has data backup plan and recovery procedures.
Crisis Management	 Crisis management team headed by the Group's Senior Management was formed to address any critical issues and operational matters effectively and efficiently and on a timely manner. The Emergency Response Team was formed in response to the COVID-19 pandemic to provide clear guidelines and Standard Operating Policies and Procedures ("SOPPs") to realign business operation with the new normal ways of operations, ensuring safety, productivity and compliance.

Other key elements of the Group's system of internal control include:

- An appropriate organisation structure for planning, executing, controlling and monitoring business operations with clear lines of reporting and responsibility, and defined delegations of authority.
- Uniform and consistent protocols and controls within the Group, whereby key processes in the Group's management and operations
 have been formalised and documented in the form of SOPPs. These SOPPs are subject to review and improvements, particularly
 through periodic reviews.
- Annual budgets for business units and the Group which requires the Board's approval. Variances arising between actual performances against budget are monitored and reported regularly. Such results are consolidated and presented to the Board on a regular basis.
- · Clear authorisation levels for all aspects of the business, which are formalised via the Group's LoA.
- Occupational safety and health ("OSH") guidelines, which include the formation of a safety committee to enhance OSH procedures and address OSH issues that may arise from time to time.
- Periodic review of Related Party Transactions by the Audit Committee and the Board to ensure compliance with the Listing Requirements.

Independent Assurance Mechanism

Regular assessments on the adequacy and integrity of the internal control system are carried out through internal audits. The Group's internal audit function has been outsourced to an independent professional services firm since 24 July 2015 to assist the Board and the Audit Committee in undertaking independent assessment on the adequacy, efficiency and effectiveness of the Group's internal control system.

During the financial year ended 30 September 2020, internal audit reviews were carried out in accordance with a risk-based internal audit plan that is approved by the Audit Committee. The internal audit methodology applied is risk based and in with the International Professional Practices Framework as promulgated by the Institute of Internal Auditors.

Results of the internal audit reviews including recommendations for improvements as well as corrective measures implemented or planned were presented to the Audit Committee for their deliberation on a quarterly basis. Based on the internal audit reviews conducted during the year, none of the weaknesses noted have resulted in any material losses, contingencies or uncertainties that would require a separate disclosure in this annual report.

5. MATERIAL ASSOCIATES

The disclosures in this statement do not include the risk management and internal control practices of the Company's material associates. The Company's interests in these entities are safeguarded through the appointment of members of the Group's Senior Management team to the Board of Directors and, in certain cases, the Management Committees of these entities.

6. ASSURANCE FROM MANAGEMENT

In accordance with the Statement on Risk Management & Internal Control: Guidelines for Directors of Listed issuers, the Board has received assurances from the Executive Chairman and the Chief Financial Officer, that, to the best of their knowledge, the risk management and internal controls of the Group are operating effectively and adequately in all material respects, based on the risk management and internal control frameworks adopted by the Group.

7. REVIEW OF THE STATEMENT BY EXTERNAL AUDITORS

Pursuant to Paragraph 15.23 of the Listing Requirements, the External Auditors have reviewed this Statement on Risk Management & Internal Control for inclusion in the 2020 Annual Report. Their review was performed in accordance with Audit and Assurance Practice Guide 3: Guidance for Auditors on Engagements to Report on the Statement on Risk Management and Internal Control included in the Annual Report issued by the Malaysian Institute of Accountants. Based on their review, nothing has come to their attention that causes them to believe that this statement is not prepared, in all material respects, in accordance with the disclosures required to be set out by paragraphs 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers to be set out, nor is factually inaccurate.

8. CONCLUSION

The Board is of the view that the system of internal control and risk management is in place for the period under review and, up to the date of approval of this statement for inclusion in the annual report, is sound and sufficient to safeguard the Group's assets, as well as the shareholders' investments, the interests of customers, regulators, employees and other stakeholders. There were no material control failures or adverse compliance events that have directly resulted in any material loss to the Group.

This Statement was approved by the Board on 22 January 2021.

ADDITIONAL COMPLIANCE INFORMATION

Directors' Responsibility Statement

The Directors are required by the Companies Act 2016 ("Act") to cause Management to prepare the financial statements for each financial year in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards ("IFRS") and the requirements of the Act to give a true and fair view of the financial position of the Group and the Company at the end of the financial year and of the financial performance and cash flows of the Group and the Company for the financial year. Where there are new accounting standards or policies that become effective during the vear, the impact of these new requirements would be stated in the notes to the financial statements, accordingly.

In the preparation of the financial statements, the Directors ensure that Management have:

- a. applied appropriate and consistent accounting policies;
- b. made judgements and estimates that are reasonable and prudent;
- c. ensured that all applicable accounting standards have been followed; and
- d. prepared financial statements on a 'going concern' basis as the Directors have a reasonable expectation, having made enquiries, that the Group and the Company have adequate resources to continue operations for the foreseeable future.

The Directors have responsibility to ensure that the Company keeps accounting records, which disclose with reasonable accuracy the financial position of the Company and the Group, which enable them to ensure that financial statements comply with the provisions of the Act. The Directors have overall responsibility for taking such steps as are reasonably available to them to safeguard the assets of the Group to prevent and detect fraud and other irregularities.

Material Contract Involving Directors' and Major Shareholders' Interest

There were no material contracts entered into by the Company and its subsidiaries involving Directors and Major Shareholders' Interest which were still subsisting as at the end of the financial year under review or which were entered into since the end of previous financial period except as disclosed in the financial statements.

In the opinion of the directors, the results of operations of the Group and of the Company during the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature, other than the significant event during the year as disclosed in Note 51 to the financial statements.

DIVIDENDS

No dividend has been paid or declared by the Company since the end of the previous financial year. The directors do not recommend any dividend payment in respect of the current financial year.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year other than those disclosed in the financial statements.

ISSUES OF SHARES AND DEBENTURES

During the financial year:

- (a) there were no changes in the issued and paid-up share capital of the Company; and
- (b) there were no issues of debentures by the Company.

TREASURY SHARES

The shareholders of the Company had on 12 June 2020 approved the Company to purchase up to 10% of its prevailing issued and paid-up share capital. At the end of the reporting period, no shares was repurchased and held as treasury shares in accordance with Section 127 of the Companies Act, 2016.

OPTIONS GRANTED OVER UNISSUED SHARES

During the financial year, no options were granted by the Company to any person to take up any unissued shares in the Company.

EMPLOYEES' SHARE OPTION SCHEME ("ESOS")

On 29 March 2019, the shareholders of the Company approved the establishment of ESOS of up to ten percent (10%) of the total number of issued and paid-up ordinary shares of the Company (excluding Treasury Shares, if any) for eligible directors and employees of the Company and its subsidiaries (excluding subsidiaries which are dormant).

The ESOS is administered by the Employees' Share Option Scheme Committee ("ESOS Committee") in accordance with the ESOS by-Laws. The ESOS was established on 4 September 2019 for a period of five (5) years and may be extended or renewed (as the case may be) for another five (5) years in accordance to the ESOS By-Laws.

During the financial year, the Company has not granted ESOS options to the eligible persons under the ESOS.

The salient features of the FSOS are disclosed in Note 45 to the financial statements.

WARRANTS

The Warrants 2015/2020 with 158,358,462 warrants outstanding have expired on 22 July 2020 and had then been delisted from Bursa Malaysia on 23 July 2020. The details of the warrants are disclosed in Note 35.1 to the financial statements.

OTHER STATUTORY INFORMATION

Before the financial statements of the Group and of the Company were prepared, the directors took reasonable steps:

- to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts, (a) and have satisfied themselves that there were no known bad debts to be written off and that adequate allowance had been made for doubtful debts: and
- to ensure that any current assets which were unlikely to be realised in the ordinary course of business including the value of current assets as shown in the accounting records of the Group and of the Company had been written down to an amount which the current assets might be expected so to realise.

OTHER STATUTORY INFORMATION (CONTINUED)

At the date of this report, the directors are not aware of any circumstances:

- (a) which would render it necessary to write off any bad debts or the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
- (b) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
- (c) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or
- (d) not otherwise dealt with in this report or the financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

At the date of this report, there does not exist:

- (a) any charge on the assets of the Group and of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; and
- (b) any contingent liability of the Group and of the Company which has arisen since the end of the financial year.

No contingent or other liability has become enforceable, or is likely to become enforceable, within the period of twelve months after the end of the financial year, which in the opinion of the directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations when they fall due.

In the opinion of the directors, no item, transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of operations of the Group and of the Company in the financial year in which this report is made.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of SUNSURIA BERHAD, which comprise the statements of financial position of the Group and of the Company as at 30 September 2020, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 96 to 195.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 30 September 2020, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matter to be communicated in our report.

Revenue and Cost of Sales Recognition for Property Development Activities					
Key Audit Matter	How our audit addressed the Key Audit Matter				
During the financial year ended 30 September 2020, property development revenue amounted to RM194 million, representing 98%	Our key procedures include, amongst others:				
of the Group's total revenue while its related cost of sales amounted to RM114 million, representing 99% of the Group's total cost of sales.	Obtained an understanding of the process and relevant controls put in place by the Group in respect of: (a) revenue recognition for property development activities				
The Group recognises property development revenue and cost of sales using input method. The stage of completion is determined by the proportion of property development costs incurred for work	and performed procedures to evaluate the design and implementation and operating effectiveness of such controls; and				
performed to date over the estimated total property development costs.	 (b) budgeting of property development projects and computation of percentage of completion.

Revenue and Cost of Sales Recognition for Property Development Activities (Continued)

Key Audit Matter

Accounting for property development activities is inherently complex, whereby significant judgements and estimates are involved in the following areas:

- determination of stage of completion; and
- estimated total property development costs and costs to be incurred to complete a project.

We determined this to be a key audit matter given its magnitude relative to the Group's revenue and cost of sales as well as the complexity and judgmental nature of these activities.

Refer to Note 4.1 (b)(iv) (Critical Accounting Judgements and Key Sources of Estimation Uncertainty - Revenue and Cost of Sales Recognition for Property Development Activities), Note 4.26 (b) (Significant Accounting Policies - Revenue and Other Income), Note 5 (Revenue), Note 6 (Cost of Sales) and Note 18 (Inventories) to the financial statements.

How our audit addressed the Key Audit Matter

- Evaluated the terms and conditions of major sales transactions to ensure that revenue recognised conforms to the Group policy and the requirements of MFRS 15.
- Assessed the Sale & Purchase agreements ("SPA") entered into between the purchasers and the Group and test checked for subsequent cancellation of SPA.
- Performed test of details on actual development costs incurred to date to the relevant supporting documentation such as contractor's progress claims, surveyor certificates and architect certificates.
- 5. Assessed the reasonableness of management-prepared budgets for property development projects against letters of award issued to contractors, challenged management assumptions used in the preparation of the respective budgets and performed retrospective review to establish the reliability of management-prepared budgets.
- 6. Interviewed management's project team on the achievability of the budgeted costs to the completion of individually significant projects.
- 7. Performed site visits for individually significant on-going projects to arrive at an overall assessment as to whether information provided by management is reasonable.
- 8. Performed search for unrecorded liabilities and cut off tests for actual cost incurred. Evaluated accruals made in respect of work performed by contractors and consultants of which progress claims have yet to be received through review the basis of estimation of the amount accrued and subsequent progress claims received after year end.
- Obtained confirmation of material amounts payable to contractors and consultants and tested details of progress claims for construction costs incurred and payables reconciliation, if any.
- 10. Assessed the stage of completion of individually significant on-going development projects to the expected handover date, obtained an understanding on the cause of the delays as well as corroborated key judgement applied by management in regards to the projects whereby actual progress is behind planned progress in assessing adequacy of liquidated ascertained damages.

(Incorporated in Malaysia)

We have determined that there are no key audit matters in the audit of the separate financial statements of the Company to communicate in our auditors' report.

Information Other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company do not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As a part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud
 or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to
 provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting
 from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.

(Incorporated in Malaysia)

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act, 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the contents of this report.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

3. BASIS OF PREPARATION OF FINANCIAL STATEMENTS (CONTINUED)

3.3 New accounting pronouncement that has yet to be effective but has been early adopted:

Amendments to MFRS 16 COVID-19 - Related Rent Concessions

The Group and the Company have on 1 October 2019, elected to early adopt amendments to MFRS 16 COVID-19 - Related Rent Concessions which will take effect on or after annual periods beginning on or after 1 June 2020.

The amendments provide lessee option elect not to assess whether a COVID-19-related rent concession is a lease modification. A lessee that makes this election shall account for any change in lease payments resulting from the COVID-19-related rent concession the same way it would account for the change applying MFRS 16 if the change were not a lease modification.

The practical expedient would apply only to rent concessions occurring as a direct consequence of COVID-19 and only if all of the following conditions are met:

- (a) The change in lease payments results in a revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- (b) Any reduction in lease payments affects only payments originally due on or before 30 June 2021 (a rent concession would meet this condition if it results in reduced lease payments on or before 30 June 2021 and increased lease payments that extend beyond 30 June 2021); and
- (c) There is no substantive change to other terms and conditions of the lease.

The amount recognised in profit or loss to reflect changes in lease payments that arise from rent concessions to which the Group has applied the practical expedient are amounted to RM142,000.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

Estimates and judgements are continually evaluated by the directors and management and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

(a) Critical Judgement Made In Applying Accounting Policies

The directors are of the opinion that there are no instances of application of judgement which are expected to have a significant effect on the amounts recognised in the financial statements.

(b) Key Sources of Estimation Uncertainties

The key assumptions concerning the future and other key sources associated with estimation uncertainty at the reporting date that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

(i) Income Taxes

There are certain transactions and computations for which the ultimate tax determination may be different from the initial estimate. The Group recognises tax liabilities based on its understanding of the prevailing tax laws and estimates of whether such taxes will be due in the ordinary course of business. Where the final outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax expense and deferred tax balances in the year in which such determination is made.

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 4.

- 4.1 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)
 - Key Sources of Estimation Uncertainties (continued)

(ii) **Deferred Tax Assets**

Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unabsorbed capital allowances to the extent that it is probable that future taxable profits would be available against which the deductible temporary differences, unused tax losses and unabsorbed capital allowances could be utilised.

Management judgement is required to determine the amount of deferred tax assets that can be recognised, based on the assessment of the probability of the future taxable profits. The carrying amount of deferred tax assets as at the reporting date is disclosed in Note 19.

(iii) Impairment of Goodwill

The assessment of whether goodwill is impaired requires an estimation of the value in use of the cash-generating unit to which the goodwill is allocated. Estimating a value in use amount requires management to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill as at the reporting date is disclosed in Note 17.

(iv) Revenue and Cost of Sales Recognition for Property Development Activities

Revenue is recognised as and when the control of the asset is transferred to customers and it is probable that the Group and the Company will collect the consideration to which it will be entitled in exchange for the asset that will be transferred to the customer. Depending on the terms of the contract and the applicable laws governing the contract, control of the asset may transfer over time or at a point in time.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation based on the physical proportion of contract work-to-date certified by professional consultants. Significant judgement is required in determining the progress towards complete satisfaction of that performance obligation based on the certified work-to-date corroborated by the level of completion of the development based on actual costs incurred to date over the estimated total property development costs. The total estimated costs are based on approved budgets, which require assessments and judgements to be made on changes in, for example, work scope, changes in costs and costs to completion. In making these judgements, management relies on past experience and the work of specialists.

Net Realisable Value of Inventories

Inventories are stated at the lower of cost and net realisable value. The Group determines net realisable value based on historical trends and management estimates of future selling pricing. Possible changes in these estimates could result in revisions to the valuation of inventories.

(vi) Impairment of Non-Financial Assets

The Group and the Company review the carrying amount of its non-financial assets to determine whether there is an indication that those assets have suffered an impairment loss.

When there is an indication that the carrying amount of an asset may be impaired, the asset's recoverable amount, being the higher of its fair value less costs to sell and its value-in-use ("VIU"), will be assessed. The assessment of the recoverable amounts involves a number of methodologies.

- 4.1 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)
 - (b) Key Sources of Estimation Uncertainties (continued)

(vi) Impairment of Non-Financial Assets (continued)

In determining the VIU of an asset, being the future economic benefits to be expected from its continued use and ultimate disposal, the Group and the Company make estimates and assumptions that require significant judgements. While the Group and the Company believe these estimates and assumptions of VIU could be reasonable and appropriate, changes on these estimates and assumptions of VIU could impact the Group's and the Company's financial position and results.

In determining the fair value less costs to sell, it has been done by references to the latest valuation carried out by independent firm of professional valuers.

The impairment loss on investment in subsidiaries, property, plant and equipment, investment properties and right-of-use assets are disclosed in Note 12, 15, 16 and 20 respectively.

4.2 BASIS OF CONSOLIDATION

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to the end of the reporting period.

Subsidiaries are entities (including structured entities, if any) controlled by the Group. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Potential voting rights are considered when assessing control only when such rights are substantive. The Group also considers it has de facto power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return.

Subsidiaries are consolidated from the date on which control is transferred to the Group up to the effective date on which control ceases, as appropriate.

Intragroup transactions, balances, income and expenses are eliminated on consolidation. Where necessary, adjustments are made to the financial statements of subsidiaries to ensure consistency of accounting policies with those of the Group.

Non-controlling interests are presented within equity in the consolidated statements of financial position, separately from the equity attributable to owners of the Company. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All changes in the parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests is adjusted and the fair value of consideration paid or received is recognised directly in equity of the Group.

Upon the loss of control of a subsidiary, the Group recognises any gain or loss on disposal in profit or loss which is calculated as the difference between:

- (a) the aggregate of the fair value of the consideration received and the fair value of any retained interest in the former subsidiary; and
- (b) the previous carrying amount of the assets (including goodwill), and liabilities of the former subsidiary and any noncontrolling interests.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 4.

4.2 BASIS OF CONSOLIDATION (CONTINUED)

Amounts previously recognised in other comprehensive income in relation to the former subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of (i.e. reclassified to profit or loss or transferred directly to retained earnings). The fair value of any investments retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under MFRS 9 or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Acquisitions of businesses are accounted for using the acquisition method. Under the acquisition method, the consideration transferred for acquisition of a subsidiary is the fair value of the assets transferred, liabilities incurred and the equity interests issued by the Group at the acquisition date. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs, other than the costs to issue debt or equity securities, are recognised in profit or loss when incurred.

In a business combination achieved in stages, previously held equity interests in the acquiree are remeasured to fair value at the acquisition date and any corresponding gain or loss is recognised in profit or loss.

Non-controlling interests in the acquiree may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets at the date of acquisition. The choice of measurement basis is made on a transaction-by-transaction basis.

4.3 GOODWILL

Goodwill is measured at cost less accumulated impairment losses, if any. The carrying value of goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying amount may be impaired. The impairment value of goodwill is recognised immediately in profit or loss. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Under the acquisition method, any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interests recognised and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities at the date of acquisition is recorded as goodwill.

Where the latter amount exceeds the former, after reassessment, the excess represents a bargain purchase gain and is recognised as a gain in profit or loss.

4.4 FUNCTIONAL AND FOREIGN CURRENCIES

(a) Functional and Presentation Currency

The individual financial statements of each entity in the Group and the Company are presented in the currency of the primary economic environment in which the entity operates, which is the functional currency.

The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is the Group's and the Company's functional and presentation currency and has been rounded to the nearest thousand, unless otherwise stated.

(b) Foreign Currency Transactions and Balances

Transactions in foreign currencies are converted into the respective functional currencies on initial recognition, using the exchange rates at the transaction dates. Monetary assets and liabilities at the end of the reporting period are translated at the exchange rates ruling as of that date. Non-monetary assets and liabilities are translated using exchange rates that existed when the values were determined. All exchange differences are recognised in profit or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.5 FINANCIAL INSTRUMENTS

Financial instruments are contracts that give rise to both a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset from another enterprise, a contractual right to exchange financial instruments with another enterprise under conditions that are potentially favourable, or an equity instrument of another enterprise.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or to exchange financial instruments with another enterprise under conditions that are potentially unfavourable.

(a) Recognition and Initial Measurement

Financial assets and financial liabilities are recognised when the Group and the Company become a party to the contractual provisions of the instruments.

At initial recognition, the Group and the Company measure a financial asset (unless it is a trade receivable without significant financing component) or a financial liability at its fair value plus or minus, in the case of a financial instrument not at fair value through profit or loss ("FVTPL"), transaction costs that are directly attributable to the acquisition or issuance. Transaction costs of financial assets at FVTPL are recognised immediately in profit or loss.

Trade receivables without a significant financing component are initially measured at transaction price in accordance with MFRS 15.

Regular way of purchase or sale of a financial asset is recognised on the trade date, the date on which the Group and the Company commit to purchase or sell an asset.

(b) Classification and Subsequent Measurement

Financial Assets

The Group and the Company classify its financial assets in the following measurement categories:

- (i) those to be measured at fair value (either through other comprehensive income ("FVTOCI") or FVTPL; and
- (ii) those to be measured at amortised cost.

The classification depends on the Group's and the Company's business model for managing the financial assets and their contractual cash flows characteristics.

For assets measured at fair value, gain and losses will be recorded in either profit or loss or other comprehensive income ("OCI").

The Group and the Company reclassify debt instruments when and only when its business model for managing those assets changes.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 4.

- 4.5 FINANCIAL INSTRUMENTS (CONTINUED)
 - Classification and Subsequent Measurement (continued)

Financial Assets (continued)

Financial assets at amortised cost

Financial assets that are held for collection of contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding are classified as financial assets at amortised cost. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method, less accumulated impairment.

Interest income from these financial assets is calculated using the effective interest rate method and is recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. For credit-impaired financial assets, the effective interest rate shall be applied to the amortised cost of the financial asset in subsequent reporting periods.

Financial assets at fair value through other comprehensive income ("FVTOCI") (ii)

This category comprises investment in equity instruments which are not held for trading, and the Group and the Company irrevocably elect to present subsequent changes in fair value of the investments in OCI. The election is made on an investment by-investment basis. On derecognition, gains and losses accumulated in OCI are not reclassified to profit or loss.

Dividend income from these investments is recognised in profit or loss when the right to receive payment of the dividend is established.

The Group and the Company subsequently measured these investments in equity instruments at fair value.

Financial assets at fair value through profit or loss ("FVTPL")

Financial assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. Fair value changes are recognised in profit or loss in the period in which it arises.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.5 FINANCIAL INSTRUMENTS (CONTINUED)

(b) Classification and Subsequent Measurement (continued)

Financial Liabilities

Financial liabilities of the Group and the Company are classified as 'financial liabilities measured at amortised cost'.

The Group's and the Company's financial liabilities measured at amortised cost are initially measured at fair value, net of transaction costs and subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

(c) Impairment of financial assets and contract assets

An impairment loss is recognised in profit or loss based on expected credit losses ("ECL") at the end of each reporting period. ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group and the Company in accordance with the contract and the cash flows that the Group and the Company expect to receive). ECLs are discounted at the effective interest rate of the financial asset.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. 12-month ECL represents the portion of lifetime ECL that is expected to result from defaults event on a financial instrument that are possible within 12 months after the end of reporting period.

Reversal of impairment loss to profit or loss, if any, is restricted to not exceeding what the amortised cost would have been had the impairment not been recognised previously.

The Group and the Company apply the simplified approach to measure the impairment of trade receivables, contract assets and lease receivables at lifetime ECL. The ECL are estimated based on the Group's and the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the end of the reporting period, including time value of money where appropriate.

To measure the ECL, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables. The Group and the Company have therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

For other financial assets such as other receivables and amount owing from related companies, the Group and the Company recognise lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group and the Company measure the impairment losses for that financial instrument at an amount equal to 12-month ECL.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.5 FINANCIAL INSTRUMENTS (CONTINUED)

(c) Impairment of financial assets and contract assets (continued)

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group and the Company consider reasonable and supportable information that is relevant and available without due cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's and the Company's historical experience and informed credit assessment and includes forward-looking information

At the end of each reporting period, the Group and the Company assess whether the financial assets carried at amortised cost are credit-impaired. A financial asset is "credit-impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred, such as debtor who have defaulted on payment, or are in significant financial difficulties, or it is becoming probable that the borrower will enter bankruptcy.

These assets are written off when there is no reasonable expectation of recovery, with case-by-case assessment performed based on indicators such as insolvency or demise. Subsequent recoveries of amounts previously written off are recognised in profit or loss as bad debts recovered.

Deposits and bank balances of the Group and of the Company are placed with reputable financial institution with high credit ratings and no history of default. Hence, the Group and the Company do not expect any losses from default or non-performance by the counterparties.

(d) Derecognition

(i) Derecognition of financial assets

Financial assets are derecognised when the contractual rights to receive cash flows from the financial assets have expired or have been transferred and the Group and the Company have transferred substantially all the risks and rewards of ownership.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the consideration received and receivable is recognised in profit or loss, except for the derecognition of an investment in equity instruments measured at FVTOCI, the cumulative gain or loss is transferred within equity, not recognised in profit or loss.

(ii) Derecognition of financial liabilities

The Group and the Company derecognise financial liabilities when, and only when, the Group's and the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability recognised and the consideration paid or payable is recognised in profit or loss.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.5 FINANCIAL INSTRUMENTS (CONTINUED)

(e) Financial Guarantee Contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specific debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantee contracts are recognised initially as liabilities at fair value, net of transaction costs. Subsequent to initial recognition, financial guarantee contracts are recognised as income in profit or loss over the period of the guarantee or, when there is no specific contractual period, recognised in profit or loss upon discharge of the guarantee. If the debtor fails to make payment relating to a financial guarantee contract when it is due and the Company, as the issuer, is required to reimburse the holder for the associated loss, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the end of the reporting period and the amount initially recognised less cumulative amortisation.

(f) Equity Instruments

Equity instruments classified as equity are measured at cost and are not remeasured subsequently.

(i) Ordinary Shares

Ordinary shares are classified as equity and recorded at the proceeds received, net of directly attributable transaction costs.

Dividends on ordinary shares are recognised as liabilities when approved for appropriation.

(ii) Treasury Shares

When the Company's own shares recognised as equity are bought back, the amount of the consideration paid, including all costs directly attributable, are recognised as a deduction from equity. Own shares purchased that are not subsequently cancelled are classified as treasury shares and are presented as a deduction from total equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of treasury shares.

Where treasury shares are reissued by resale, the difference between the sales consideration received and the carrying amount of the treasury shares is recognised in equity.

Where treasury shares are cancelled, their costs are transferred to retained earnings.

4.6 WARRANTS

Amount allocated in relation to the issuance of warrants are credited to the warrant reserve which is non-distributable. The warrant reserve is transferred to the share capital upon exercise of the warrants and the warrant reserve in relation to the unexercised at the expiry of the warrants period will be transferred to retained earnings.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 4.

4.7 INVESTMENT IN SUBSIDIARIES

Investment in subsidiaries are stated at cost in the statement of financial position of the Company, and are reviewed for impairment at the end of the reporting period if events or changes in circumstances indicate that the carrying values may not be recoverable. The cost of the investments includes transaction costs.

On the disposal of the investment in subsidiaries, the difference between the net disposal proceeds and the carrying amount of the investment is recognised in profit or loss.

4.8 INVESTMENT IN ASSOCIATES

An associate is an entity in which the Group and the Company have a long-term equity interest and where it exercises significant influence over the financial and operating policies.

Investment in associates are stated at cost in the statement of financial position of the Company, and are reviewed for impairment at the end of the reporting period if events or changes in circumstances indicate that the carrying values may not be recoverable. The cost of the investment includes transaction costs.

The investment in an associate is accounted for in the consolidated financial statements using the equity method based on the financial statements of the associate made up to 30 September 2020. The Group's share of the post-acquisition profits and other comprehensive income of the associate is included in the consolidated statements of profit or loss and other comprehensive income, after adjustment if any, to align the accounting policies with those of the Group, from the date that significant influence commences up to the effective date on which significant influence ceases or when the investment is classified as held for sale. The Group's interest in the associate is carried in the consolidated statements of financial position at cost plus the Group's share of the post-acquisition retained earnings and reserves.

When the Group's share of losses exceeds its interest in an associate, the carrying amount of that interest is reduced to zero, and the recognition of further losses is discontinued.

Unrealised gains on transactions between the Group and the associate are eliminated to the extent of the Group's interest in the associate. Unrealised losses are eliminated unless cost cannot be recovered.

When the Group ceases to have significant influence over an associate and the retained interest in the former associate is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as the initial carrying amount of the financial asset in accordance with MFRS 9. Furthermore, the Group also reclassifies its share of the gain or loss previously recognised in other comprehensive income of that associate into profit or loss when the equity method is discontinued.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.9 PROPERTY, PLANT AND EQUIPMENT

All items of property, plant and equipment are initially measured at cost. Cost includes expenditure that are directly attributable to the acquisition of the asset and other costs directly attributable to bringing the asset to working condition for its intended use.

Subsequent to initial recognition, all property, plant and equipment, other than freehold land and capital work in progress are stated at cost less accumulated depreciation and any impairment losses.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when the cost is incurred and it is probable that the future economic benefits associated with the asset will flow to the Group and the cost of the asset can be measured reliably. The carrying amount of parts that are replaced is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

Freehold land and capital work in progress are not depreciated. Depreciation on other property, plant and equipment is charged to profit or loss on a straight-line method to write off the depreciable amount of the assets over their estimated useful lives. Depreciation of an asset does not cease when the asset becomes idle or is retired from active use unless the asset is fully depreciated. The principal annual rates used for this purpose are as follows:

Buildings	10%
Plant and machinery	20%
Furniture, fittings and equipment	10% - 20%
Motor vehicles	20%
Renovation	20%
Sculpture	20%
Signboard	20%
Virtual show unit	20%

The depreciation method, useful lives and residual values are reviewed, and adjusted if appropriate, at the end of each reporting period to ensure that the amounts, method and periods of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of the property, plant and equipment. Any changes are accounted for as a change in estimate.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising from derecognition of the asset, being the difference between the net disposal proceeds and the carrying amount, is recognised in profit or loss.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 4.

4.10 INVESTMENT PROPERTIES

Investment properties are properties which are owned or held under a leasehold interest to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are initially measured at cost. Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to a working condition for their intended use.

Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any.

Depreciation is charged to profit or loss on a straight-line method over the estimated useful lives of the investment properties. Leasehold land is depreciated on a straight-line basis over the lease terms of 55 to 90 years. Buildings and carpark are depreciated on a straight-line over their estimated useful lives of 50 years.

Freehold land and investment properties under construction are not depreciated.

Investment properties are derecognised when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal.

On the derecognition of an investment property, the difference between the net disposal proceeds and the carrying amount is recognised in profit or loss.

Transfers are made to or from investment property only when there is a change in use. All transfers do not change the carrying amount of the property reclassified.

4.11 BIOLOGICAL ASSETS

Biological assets comprise of grasses, shrubs and trees. This represents grasses, shrubs and trees development expenditure consisting of cost incurred on preparation, planting and upkeep of grasses, shrubs and trees to maturity which are initially recognised at cost.

The Group measures biological assets at fair value less costs to sell from initial recognition up to the point of harvest, other than when fair value cannot be measured reliably on initial recognition. Gains and losses arising on the initial recognition of biological assets at fair value less costs to sell and changes in fair value less costs to sell are charge to profit or loss in the period in which they arise.

Replanting expenditure is charged to profit or loss in the financial year in which the expenditure is incurred.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.12 INVENTORIES

(a) Land Held for Property Development

Land held for property development consists of land on which no significant development has been undertaken or where development activities are not expected to be completed within the normal operating cycle, and costs attributable to the development activities which are held for future development. Such land is classified as non-current asset and is stated at lower of cost and net realisable value.

Costs associated with the acquisition of land include the purchase price of the land, professional fees, stamp duties, commissions, conversion fees and other relevant levies. Pre-acquisition costs are charged to profit or loss as incurred unless such costs are directly identifiable to the consequent property development activity.

(b) Property Development Costs

Property development costs are stated at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less cost to completion and selling expense. The property development cost is subsequently recognised as an expense in profit or loss when the control of the inventory is transferred to the customer.

Property development cost of unsold unit is transferred to completed development unit once the development is completed.

(c) Completed development units and vacant land for sale

Completed property units and vacant land for sale are valued at the lower of cost (determined on the specific identification basis) and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less cost to completion and selling expense.

(d) Construction materials

The cost of construction materials represents cost of purchase plus incidental costs.

4.13 CONTRACT ASSETS AND CONTRACT LIABILITIES

Contract asset is the right to consideration for goods or services transferred to the customers. The Group's contract asset is the excess of cumulative revenue earned over the billings to-date.

Where there is objective evidence of impairment, the amount of impairment losses is determined by comparing the contract asset's carrying amount and the present value of estimated future cash flows to be generated by the contract asset.

Contract asset is reclassified to trade receivables at the point at which invoices have been billed to customers.

Contract liability is the obligation to transfer goods or services to customers for which the Group has received the consideration or has billed the customers. The Group's contract liability is the excess of the billings to-date over the cumulative revenue earned. Contract liabilities are recognised as revenue when the Group performs its obligation under the contracts.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 4.

4.14 CONTRACT COSTS

The Group recognises the incremental costs of obtaining a contract with a customer, which are expected to be recovered, as an asset. The incremental costs of obtaining a contract are costs incur to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

These contract costs are initially measured at cost and amortised on a systematic basis that is consistent with the pattern of revenue recognition to which the asset relates. An impairment loss is recognised in profit and loss when the carrying amount of the contract cost asset exceeds the expected revenue less expected costs that will be incurred.

4.15 NON-CURRENT ASSETS CLASSIFIED AS HELD FOR SALE

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the non-current asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of the carrying amount and fair value less costs to sell.

4.16 IMPAIRMENT OF NON-FINANCIAL ASSETS EXCLUDING GOODWILL

The carrying values of assets, other than those to which MFRS 136 - Impairment of Assets does not apply, are reviewed at the end of each reporting period for impairment when there is an indication that the assets might be impaired. Impairment is measured by comparing the carrying values of the assets with their recoverable amounts. When the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount and an impairment loss shall be recognised. The recoverable amount of the assets is the higher of the assets' fair value less costs to sell and their value in use, which is measured by reference to discounted future cash flow using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where it is not possible to estimate the recoverable amount of an individual asset, the Group determines the recoverable amount of the cash-generating unit to which the asset belongs.

An impairment loss is recognised in profit or loss immediately unless the asset is carried at its revalued amount. Any impairment loss of a revalued asset is treated as a revaluation decrease to the extent of a previously recognised revaluation surplus for the same asset. Any impairment loss recognised in respect of a cash-generating unit is allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit and then to reduce the carrying amounts of the other assets in the cashgenerating unit on a pro rata basis.

In respect of assets other than goodwill, and when there is a change in the estimates used to determine the recoverable amount, a subsequent increase in the recoverable amount of an asset is treated as a reversal of the previous impairment loss and is recognised to the extent of the carrying amount of the asset that would have been determined (net of amortisation and depreciation) had no impairment loss been recognised. The reversal is recognised in profit or loss immediately, unless the asset is carried at its revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

4.17 LEASE

The Group and the Company recognise a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of the right-of-use assets are determined on the same basis as those of property, plant and equipment as follows:

Buildings 20 to 50 years, or over the lease term, if shorter Plant and equipment 5 to 40 years, or over the lease term, if shorter

In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurement of the lease liability.

The lease liability is initially measured at the present value of future lease payments at the commencement date, discounted using the Group's and the Company's incremental borrowing rates. Lease payments included in the measurement of the lease liability include fixed payments, any variable lease payments, amount expected to be payable under a residual value guarantee, and exercise price under an extension option that the Group and the Company are reasonably certain to exercise.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in rate, or if the Group or the Company change its assessment of whether it will exercise an extension or termination option.

Lease payments associated with short term leases and leases of low value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low value assets are those assets valued at less than RM2,000 each when purchased new.

(a) The Group and the Company as lessee

The Group and the Company assess whether a contract is or contains a lease, at inception of the contract. The Group and the Company recognise a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group and the Company recognise the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group and the Company use its incremental borrowing rate.

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.17 LEASE (CONTINUED)

(a) The Group and the Company as lessee (continued)

The incremental borrowing rate is determined by referring to rate of interest that the lessee would have to pay to borrow over a similar term and with a similar security the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

Lease payments included in the measurement of the lease liability comprise:

- (i) fixed lease payments (including in-substance fixed payments), less any lease incentives receivables;
- (ii) variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date:
- (iii) the amount expected to be payable by the lessee under residual value guarantees;
- (iv) the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- (v) payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the statements of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group and the Company remeasure the lease liability (and make a corresponding adjustment to the related right-of-use asset) whenever:

- (i) the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- (ii) the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- (iii) a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.17 LEASE (CONTINUED)

(a) The Group and the Company as lessee (continued)

Whenever the Group and the Company incur an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under MFRS 137. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group and the Company expect to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the statements of financial position.

The Group and the Company apply MFRS 136 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Impairment of non-financial assets excluding goodwill' policy.

(b) The Group and the Company as lessor

The Group and the Company enter into lease agreements as a lessor with respect to some of its investment properties.

Leases for which the Group and the Company are lessors are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group and the Company are intermediate lessors, they account for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's and the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's and the Company's net investment outstanding in respect of the leases.

When a contract includes lease and non-lease components, the Group and the Company apply MFRS 15 to allocate the consideration under the contract to each component.

4.18 INCOME TAXES

Current Tax (a)

Current tax assets and liabilities are expected amount of income tax recoverable or payable to the taxation authorities.

Current taxes are measured using tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period and are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss (either in other comprehensive income or directly in equity).

Deferred Tax

Deferred tax are recognised using the liability method for all temporary differences other than those that arise from goodwill or from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on the tax rates that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences, unused tax losses and unused tax credits to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. The carrying amounts of deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that the related tax benefits will be realised.

Current and deferred tax items are recognised in correlation to the underlying transactions either in profit or loss, other comprehensive income or directly in equity. Deferred tax arising from a business combination is adjusted against goodwill or negative goodwill.

Current tax assets and liabilities or deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred taxes relate to the same taxable entity (or on different tax entities but they intend to settle current tax assets and liabilities on a net basis) and the same taxation authority.

4.19 CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash in hand, bank balances, demand deposits, and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of the statements of cash flows, cash and cash equivalents are presented net of bank overdrafts.

4.20 CONTINGENT LIABILITIES

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that an outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the financial statements, unless the probability of outflow of economic benefits is remote. When a change in the probability of an outflow occurs so that the outflow is probable, it will then be recognised as a provision.

4.21 FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using a valuation technique. The measurement assumes that the transaction takes place either in the principal market or in the absence of a principal market, in the most advantageous market. For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial reporting purposes, the fair value measurements are analysed into level 1 to level 3 as follows:

- Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2: Inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Inputs are unobservable inputs for the asset or liability.

The transfer of fair value between levels is determined as of the date of the event or change in circumstances that caused the transfer.

4.22 EMPLOYEE BENEFITS

(a) Short-term Benefits

Wages, salaries, paid annual leave and bonuses are measured on an undiscounted basis and are recognised in profit or loss and included in the construction costs, where appropriate, in the period in which the associated services are rendered by employees of the Group.

(b) Defined Contribution Plans

The Group's contributions to defined contribution plans are recognised in profit or loss and included in the construction costs, where appropriate, in the period to which they relate. Once the contributions have been paid, the Group has no further liability in respect of the defined contribution plans.

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) 4.

4.23 OPERATING SEGMENTS

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

4.24 BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of those assets, until such time as the assets are ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss as expenses in the period in which they incurred.

Investment income earned on the temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

4.25 EARNINGS PER ORDINARY SHARE

Basic earnings per ordinary share is calculated by dividing the consolidated profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the reporting period, adjusted for own shares held.

Diluted earnings per ordinary share is determined by adjusting the consolidated profit or loss attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares outstanding, adjusted for the effects of all dilutive potential ordinary shares, which comprise warrants.

4.26 REVENUE AND OTHER INCOME

Revenue is recognised when or as a performance obligation in the contract with customer is satisfied, i.e. when the "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation is a promise to transfer a distinct goods or service (or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer) to the customer that is explicitly stated in the contract and implied in the Group's customary business practices.

Revenue is measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised goods or services to the customers, excluding amounts collected on behalf of third parties such as taxes. If the amount of consideration varies due to discounts, rebates, refunds, credits, incentives, penalties or other similar items, the Group estimates the amount of consideration to which it will be entitled based on the expected value or the most likely outcome. If the contract with customer contains more than one performance obligation, the amount of consideration is allocated to each performance obligation based on the relative stand-alone selling prices of the goods or services promised in the contract.

The revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.26 REVENUE AND OTHER INCOME (CONTINUED)

The control of the promised goods or services may be transferred over time or at a point in time. The control over the goods or services is transferred over time and revenue is recognised over time if:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs; or
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group's performance does not create an asset with an alternative use and the Group has an enforceable right to payment for performance completed to date.

Revenue for performance obligation that is not satisfied over time is recognised at the point in time at which the customer obtains control of the promised goods or services.

Revenue is measured at the fair value of the consideration received or receivable, net of returns, applicable taxes, cash and trade discounts.

(a) Other Goods And Services

Revenue from other goods and services representing multiple promises included in the contracts with purchasers on sale of properties, which is therefore accounted as separate performance obligations. Transaction price is being allocated to each performance obligation based on the stand-alone selling prices. When these are not directly observable, they are estimated based on expected cost plus margin.

Revenue for rendering of services is recognised on a straight line basis over the tenure of the service period of which the customer consumes the benefit.

Revenue for sale of goods is recognised at a point in time when the goods are delivered or control transferred to the customer.

(b) Property Development

Contracts with buyers may include multiple promises to buyers and therefore accounted for as separate performance obligations. In this case, the transaction price will be allocated to each performance obligation based on the standalone selling prices. When these are not directly observable, they are estimated based on expected cost plus margin.

The revenue from property development is measured at the fixed transaction price agreed under the sale and purchase agreement.

Revenue from property development is recognised as and when the control of the asset is transferred to the buyer and it is probable that the Group will collect the consideration to which it will be entitled in exchange for the asset that will be transferred to the buyer. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may be transferred over time or at a point of time.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.26 REVENUE AND OTHER INCOME (CONTINUED)

(b) Property Development (continued)

The Group recognises revenue from property development over time if it creates an asset with no alternative use to the Group, and the Group has an enforceable right to payment for performance completed to date. Revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation.

The progress towards complete satisfaction of the performance obligation is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation (e.g. by reference to the property development costs incurred to date as a percentage of the estimated total costs of development of the project). The input method depicts the Group's progress of performance in the assets created which has no alternative use to the Group. Otherwise, revenue is recognised at a point in time when the buyer obtains control of the asset.

Revenue from sales of vacant land and completed development units is recognised upon delivery of vacant land and completed development units where the control of the vacant land and completed development units has been transferred to the buyer and it is probable the Group will collect the consideration to which it will entitled to exchange for the asset sold.

(c) Construction Contracts

Construction contracts with customers may include multiple promises to customers and therefore accounted for as separate performance obligations. In this case, the transaction price will be allocated to each performance obligation based on the standalone selling prices. When these are not directly observable, they are estimated based on expected cost plus margin.

The revenue from construction contracts is measured at the fixed transaction price agreed net of expected liquidated ascertained damages payment, based on the expected value method. Apart from that, it also take consideration of variations in the contract work and claims that can be measured reliably. A variation or claim is only included in contract revenue when it is probable that the customer will approve the variation or negotiations have been reached an advanced stage that it is probable that the customer will accept the claim. Variation claim gives rise to a variable consideration which are estimated at either the expected value or most likely amount and included in revenue to the extent that it is highly probable that the revenue will not be reversed.

Revenue from construction contracts is recognised as and when the control of the asset is transferred to the customer and it is probable that the Group will collect the consideration to which it will be entitled in exchange for the asset that will be transferred to the customer. Control of the asset is transferred over time as the Group's performance create or enhance an asset that the customer controls as the asset is created or enhanced. Revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. The Group recognises revenue over time using the input method, which is based on the level the proportion that the construction costs incurred to date bear to the estimated total costs for the construction contract. Costs incurred in the year in connection with future activity on a contract are excluded from contract costs in determining the stage of completion. They are presented as recoverables, prepayments or other assets, depending on their nature.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

4. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4.26 REVENUE AND OTHER INCOME (CONTINUED)

(c) Construction Contracts (continued)

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that it is probable will be recoverable. Irrespective of whether the outcome of a construction contract can be estimated reliably when it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

The aggregate of the costs incurred and the attributable profit/loss recognised on each contract is compared against the progress billings up to the end of the financial year. Where costs incurred and recognised profit (less recognised losses) exceed progress billings, the balance is shown as contract assets. Conversely, where progress billings exceed costs incurred and attributable profit, the balance is shown as contract liabilities.

(d) Interest Income

Interest income is recognised on an accrual basis using the effective interest method.

(e) Dividend Income

Dividend income from investment is recognised when the right to receive dividend payment is established.

(f) Maintenance Income

Maintenance income is recognised over time when the service is rendered in accordance to contract term.

(g) Rental Income

Rental income is recognised on a straight-line basis over the lease term.

(h) Food and Beverage Income

Revenue from food and beverage is recognised at a point in time when the related services has been rendered to customers.

4.27 PROVISIONS

Provisions are recognised when the Group and the Company have a present obligation (legal or constructive) as a result of past events, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate of the amount can be made. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the provision is the present value of the estimated expenditure required to settle the obligation. The unwinding of the discount is recognised as interest expense in profit or loss.

- (a) Included in the property, plant and equipment of the Group and of the Company at the end of the reporting period were motor vehicles with a total carrying amount of RM392,000 (2019: RM596,000), which were acquired under hire purchase terms. The leased assets have been pledged as security for the related hire purchase borrowings of the Group and of the Company as disclosed in Note 37.
- (b) Included in property, plant and equipment were freehold land and capital work in progress of the Group and the Company with carrying amount of RM3,766,000 (2019: RM1,331,000) and RM 10,175,000 (2019: RMNil) respectively which have been pledged to licensed banks as security for banking facilities as disclosed in Note 38.
- (c) During the year, the Group has made an impairment assessment in relation to the property, plant and equipment under food and beverages and e-sports hub businesses due to unexpected poor performance resulted from movement control order imposed by Malaysian Government to curb the spreading of COVID-19 as disclosed in Note 51.

These assets are used in the Group's "investment holding and others" reportable segment. The review led to the recognition of an impairment loss of RM1,751,000, which has been recognised in "Administrative and Other Expenses" line item of the statements of profit or loss and other comprehensive income.

The recoverable amounts were determined based on their value in use. The discount rate used in measuring value in use was 11% per annum. No impairment assessment was performed in 2019 as there was no indication of impairment.

Property development - SFSB	11,453	11,453

The key assumptions used in the determination of the recoverable amounts are as follows: (b)

	Average Mar		Growt	h Rate	Discou	nt Rate
	2020 %	2019 %	2020 %	2019 %	2020 %	2019 %
SFSB	25	34	Refe	r (ii)	17.43	20.07

Budgeted gross margin : The basis used to determine the value assigned to the budgeted gross margins is the average (i) gross margin achievable.

(ii) Growth rate : Based on the expected projection of sales generated from Forum I and II projects.

(iii) Discount rate (pre-tax) : The discount rate used is computed based on the unlevered weighted average cost of capital of the Company.

The values assigned to the key assumptions represent management's assessment of future trends in the cash-generating units and are based on both external sources and internal historical data.

Sensitivity analysis (c)

SFSB

The directors believe that there is no reasonable possible change in the above key assumptions applied that is likely to materially cause the respective cash-generating unit's carrying amount to be exceeded its recoverable amount.

The deferred tax assets have been recognised on the basis of a subsidiary's previous history of recording profits and to the extent that is probable that future taxable profits will be available against which temporary differences can be utilised.

FOR THE YEAR ENDED 30 SEPTEMBER 2020

19. DEFERRED TAX ASSETS/(LIABILITIES) (CONTINUED)

No deferred tax assets are recognised in the statements of financial position on the following items:

	The Group		The Company	
	2020 RM'000	2019 RM'000	2020 RM'000	2019 RM'000

The comparative figures of the Group and of the Company have been revised to reflect the previous year's final tax submission.

No deferred tax assets are recognised in respect of the above items as they are not probable that taxable profits of the Group and of the Company will be available against which the deductible temporary differences can be utilised. The unused tax losses could be carried forward for a maximum of seven consecutive years of assessment. However, the availability of unused tax losses for offsetting against future taxable profits of the Group and of the Company in Malaysia are subject to no substantial changes in shareholdings of those subsidiaries under the Income Tax Act 1967 and guidelines issued by the tax authority.

20. RIGHT-OF-USE ASSETS (CONTINUED)

During the year, the Group has made an impairment assessment in relation to the right-of-use-assets under food and beverages and e-sports hub business due to unexpected poor performance resulted from movement control order imposed by Malaysian Government to curb the spreading of COVID-19 as disclosed in Note 51.

These assets are used in the Group's "investment holding and others" reportable segment. The review led to the recognition of an impairment loss of RM1,874,000, which has been recognised in "Administrative and Other Expenses" line item of the statements of profit or loss and other comprehensive income.

The recoverable amounts were determined based on their value in use. The discount rate used in measuring value in use was 11% per annum. No impairment assessment was performed in 2019 as there was no indication of impairment.

The following table shows the breakdown of the lease expense between amounts charged to operating profit and amounts charged to finance costs:

The transaction price allocated to the performance obligations that are unsatisfied (or partially satisfied) as at 30 September 2020 is RM401,533,000 (2019: RM319,951,000) where the Group expects to recognise it as revenue over the next 2 (2019: 3) years.

There is no allowance for impairment losses recognised on contract assets in the reporting period.

CONTRACT COSTS

	The G	Group
	2020 RM'000	2019 RM'000
Costs to obtain contracts	16,540	4,642

Costs to obtain contracts relate to incremental sales person and agent commission for obtaining property sales contracts which are expected to be recovered. These costs are subsequently expensed off as cost of sales by reference to the performance completed to date, consistent with the revenue recognition pattern.

During the financial year, the total costs to obtain contracts recognised by the Group as cost of sales in profit or loss amounted to RM5,251,000 (2019: RM16,820,000).

FOR THE YEAR ENDED 30 SEPTEMBER 2020

23. CONTRACT COSTS (CONTINUED)

The Group applied the practical expedient in para 94 of MFRS 15 and recognised the incremental costs of obtaining contracts as an expense when incurred, if the amortisation period of the assets is one year or less.

There was no impairment loss in relation to the costs capitalised.

- (a) Stakeholders' sum represents retention sum held by solicitors upon handing over of vacant possession to individual purchasers of development properties. These amounts will be paid 24 months after the delivery of vacant possession together with interest earned.
- (b) The Group's normal trade credit terms for current trade receivables range from 14 to 30 (2019: 14 to 30) days. Other credit terms are assessed and approved on a case-by-case basis.
- (c) Trade receivables that are past due but not impaired are mainly related to the progress billings to be settled by the purchasers or the purchasers' end financiers. However, these debts are expected to be realised in full without material losses in the ordinary course of business as majority of the customers are with financing facilities obtained from reputable end-financiers. Amount due from tenants are secured with deposits paid by tenants prior to occupancy of premises and rentals paid in advance.
- (d) The Group has no significant concentration of credit risk that may arise from exposures to a single debtor or groups of debtors.
- (e) The Group recognises allowance for impairment losses based on expected credit losses ("ECL") model using the simplified approach, which measures the impairment losses at an amount equal to lifetime ECL.
- (f) The retention sum held by contract customer is unsecured, interest free and is expected to be received upon expiry of the defect liability period, ranging from the financial years ending 30 September 2021 to 2022 (2019: Nil)

The reserve is determined by reference to the fair value of the warrants of RM0.305 each amounted to RM48,300,249 immediately upon the listing and quotation of the rights issue on the Main Market of Bursa Malaysia Securities Berhad on 27 July 2015.

- (b) The warrant reserve relates to the portion of proceeds from the rights shares issue ascribed to the attached warrants. As and when the warrants are exercised, the related balance in the warrant reserve will be transferred to the share capital account. Each warrant carries the right to subscribe for 1 new ordinary share in the capital of the Company at an exercise price of RM1.50.
- (c) The warrants constituted by the Deed Poll dated 11 June 2015. The salient features of the warrants are as follows:
 - (i) Each warrant entitled the registered holder to subscribe for 1 new ordinary share of the Company at any time during the 5 years period commencing on and including 23 July 2015 to 22 July 2020 ("Exercise Period") at RM1.50 per new ordinary share of the Company;
 - (ii) Any warrants not exercised during Exercise Period will thereafter lapse and cease to be valid; and
 - (iii) The new ordinary shares allotted and issued pursuant to the exercise of the warrants shall rank pari passu in all aspects with the existing ordinary shares of the Company, and shall be entitled to any dividends, rights, allotments and/or other distributions after the issue and allotment thereof.

The warrants have expired on 22 July 2020 and had then been delisted on 23 July 2020. At the expiry of the warrants, the balance in the warrant reserve has been transferred to retained earnings.

EMPLOYEES' SHARE OPTION SCHEME ("ESOS") 45.

The ESOS of the Company is governed by the by-laws approved by the shareholders at the Extraordinary General Meeting held on 29 March 2019 and is administered by the ESOS Committee in accordance with the ESOS By-Laws. The ESOS was established on 4 September 2019 for a period of five (5) years and may be extended or renewed (as the case may be) for another five (5) years in accordance to the ESOS By-Laws.

The maximum number of the Company's shares under the ESOS should not exceed in aggregate 10% of the issued and paid-up ordinary share capital (excluding treasury shares) of the Company at any point of time during the duration of the scheme period. Other principal features of the ESOS are as follows:

(a) Eligibility to participate in the ESOS

In respect of the directors and employee of the Company, the employee must fulfill the following criteria:

- is at least eighteen (18) years of age and is not an undischarged bankrupt nor subject to any bankruptcy proceedings; (i)
- (ii) a director has been appointed as a director of the Company or any company in the Group for a minimum period of one (1) year;
- (iii) a permanent employee who has been confirmed and served for at least continuous period of one (1) year or a contract employee who has served for at least a period of one (1) year on a cumulative basis under the current and/or previous contract; and
- (iv) has fulfilled any other criteria and/or falls within such category as may be determined by the ESOS Committee from time to time.

Option Price

Subject to any adjustments in accordance with the By-Laws and pursuant to the Bursa Malaysia Securities Berhad ("Bursa Securities") Main Market Listing Requirements ("MMLR"), the Option Price shall be determined by the Board upon recommendation of the ESOS Committee which will be based on the 5-day Weighted Average Price ("WAP") of the Company's shares, as quoted on Bursa Securities, immediately preceding the date of offer, with a discount of not more than 10%, or such other percentage of discount as may be permitted by Bursa Securities and/or any other relevant authorities from time to time during the duration of the ESOS.

Termination of the ESOS

Subject to compliance with the Main Market Listing Requirements of Bursa Securities and any other relevant authorities, the ESOS may be terminated by the Company at any time before its expiry without obtaining the approvals from the grantees or its shareholders provided that the Company makes an announcement immediately to Bursa Securities.

During the financial year, the Company has not granted ESOS options to the eligible persons under the ESOS.

47. OPERATING SEGMENTS

Operating segments are prepared in a manner consistent with the internal reporting provided to the Executive Chairman as its chief operating decision maker in order to allocate resources to segments and to assess their performance on quarterly basis. For management purposes, the Group is organised into business units based on their products and services provided.

The Group is organised into 3 main business segments as follows:

- Property development
 - undertakes the development of commercial and residential properties.
- - undertakes the construction activities.
- Investment holding and others
 - investment activities, provision of management services and others.
- The Executive Chairman assesses the performance of the reportable segments based on their profit before interest expense and taxation. The accounting policies of the reportable segments are the same as the Group's accounting policies.
- Each reportable segment assets is measured based on all assets (including goodwill) of the segment other than investment in associates and tax-related assets.
- Each reportable segment liabilities is measured based on all liabilities of the segment other than tax-related liabilities. (c)
- Assets, liabilities and expenses which are common and cannot be meaningfully allocated to the reportable segments are presented under unallocated items. Unallocated items comprise mainly corporate assets (primarily the Company's headquarters) and head office expenses.

50. FINANCIAL INSTRUMENTS

The Group's and the Company's activities are exposed to interest rate risk, credit risk and liquidity risk. The Group's and the Company's overall financial risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's and the Company's financial performance.

50.1 FINANCIAL RISK MANAGEMENT POLICIES

The Group's and the Company's policies in respect of the major areas of treasury activity are as follows:

(a) Market Risk

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's and the Company's fixed interest bearing assets are primarily fixed deposits with licensed banks as disclosed in Note31. The Group and the Company consider the risk of significant changes to interest rates on those deposits to be unlikely.

The Group's and the Company's exposure to interest rate risk arises mainly from long-term borrowings with variable rates.

The Group's and the Company's exposure to interest rate risk based on the carrying amounts of the financial instruments at the end of the reporting period is disclosed in Note 37 and Note 38.

Interest Rate Risk Sensitivity Analysis

The following table details the sensitivity analysis to a reasonably possible change in the interest rates at the end of the reporting period, with all other variables held constant:

	The (The Group		
	2020	2019		
	RM'000	RM'000

50. FINANCIAL INSTRUMENTS (CONTINUED)

50.1 FINANCIAL RISK MANAGEMENT POLICIES (CONTINUED)

(a) Market Risk (continued)

Interest Rate Risk Sensitivity Analysis (continued)

A 100 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents managements' assessment of the reasonably possible change in interest rates.

(b) Credit Risk

The Group's and the Company's exposure to credit risk, or the risk of counterparties defaulting, arises mainly from trade and other receivables. The Group manages its exposure to credit risk by the application of credit approvals, credit limits and monitoring procedures on an ongoing basis. For other financial assets (including short-term investment and cash and bank balances), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

In determining whether credit risk on a financial asset has increased significantly since initial recognition, the Group and the Company use aging analysis to monitor the credit quality of a financial asset. The Group and the Company assess whether the credit risk on a financial asset has increased significantly on an individual or collective basis.

For individual basis evaluation, any receivables having significant balances past due more than 90 days, which are deemed to have higher credit risk, are monitored individually and determined to be impaired at the end of the reporting period relate to debtors that are in significant financial difficulties and have defaulted on payments. For collective basis evaluation, financial assets are grouped on the basis of similar risk characteristics.

The Group and the Company measure the loss allowance for receivables at an amount equal to lifetime expected credit loss ("ECL"). The expected credit losses on receivables are estimated by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current financial reporting.

The Company provides unsecured financial guarantees to banks in respect of banking facilities granted to certain subsidiaries. The Company monitors the results of the subsidiaries and repayments made by the subsidiaries on ongoing basis.

(i) Credit Risk Concentration Profile

The Group are not exposed to any significant concentration of credit risk in the form of receivables due from a single debtor or from group of debtors.

(ii) Exposure to Credit Risk

At the end of the reporting period, the maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position of the Group and of the Company after deducting any allowance for impairment losses (where applicable).

The Company's maximum exposure to credit risk in relation to unsecured financial guarantees amounted to RM250,897,000 (2019: RM182,826,000), represented by the outstanding banking facilities of the subsidiaries as at the end of the reporting period. As at the end of the reporting period, there was no indication that any subsidiary would default on repayment.

FINANCIAL INSTRUMENTS (CONTINUED) 50.

50.1 FINANCIAL RISK MANAGEMENT POLICIES (CONTINUED)

Liquidity Risk (c)

Liquidity risk arises mainly from general funding and business activities. The Group practises prudent risk management by maintaining sufficient cash balances and the availability of funding through certain committed credit facilities.

Maturity Analysis

The following table sets out the maturity profile of the financial liabilities at the end of the reporting period based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on the rates at the end of the reporting period):

50.2 CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities within the Group will be able to maintain an optimal capital structure so as to support its businesses and maximise shareholders value. To achieve this objective, the Group may make adjustments to the capital structure in view of changes in economic conditions, such as adjusting the amount of dividend payment, returning of capital to shareholders or issuing new shares.

The Group manages its capital based on debt-to-equity ratio that complies with debt covenants and regulatory, if any. The debt-to-equity ratio is calculated as net debt divided by total equity. Capital includes equity attributable to the owners of the parent and non-controlling interest. The debt-to-equity ratio of the Group at the end of the reporting period was as follows:

50.4 FAIR VALUE INFORMATION

The fair values of the financial assets and financial liabilities of the Group and of the Company which are maturing within the next 12 months approximated their carrying amounts due to the relatively short-term maturity of the financial instruments or repayable on demand terms.

The fair values of the Group's term loans that carry floating interest rates approximated their carrying amounts as they are repriced to market interest rates on or near the reporting date.

The fair values of hire purchase payables that carry fixed interest rates are determined by discounting the relevant future contractual cash flows using current market interest rates for similar instruments at the end of the reporting period.

The financial guarantees have not been recognised in the financial statements since the fair value on initial recognition was not material as the financial guarantees provided by the Company did not contribute towards credit enhancement of the subsidiaries' borrowings in view of the securities pledged by the subsidiaries.

The following table sets out the fair value profile of financial instruments that are carried at fair value at the end of the reporting period:

	The G	Group	The Company	
	2020	2019	2020	2019

The fair value of short-term investment is determined at their quoted closing prices at the end of the reporting period.

During the reporting year ended 30 September 2020, there were no transfers between the hierarchy fair value measurement.

The fair values of unquoted investment in transferable golf club memberships are determined by reference to recent market transactions and replacement cost of identical assets.

51. SIGNIFICANT EVENT DURING THE YEAR

On 11 March 2020, the World Health Organisation declared the Coronavirus ("COVID-19") outbreak as a pandemic in recognition of its rapid spread across the globe. The COVID-19 outbreak has resulted in travel restrictions, quarantines, lockdown and other precautionary measures imposed in various countries. The emergence of the COVID-19 outbreak since early 2020 has brought significant economic uncertainties across the globe.

In response to this pandemic, the Malaysian Government implemented Movement Control Order ("MCO") effective from 18 March 2020 to 12 May 2020, followed by a Conditional Movement Control Order ("CMCO") until 9 June 2020 and the Recovery Movement Control Order ("RMCO") from 10 June 2020 to 31 March 2021.

As a result of the MCO, the Group have temporary shut down its premises from 18 March 2020 till 3 May 2020. Subsequently, on 4 May 2020, the Group reopened and resume its operations by phases with proper Standard Operating Procedures ("SOP") put in place. The progress of the on-going projects were halted during MCO imposed by the Malaysian Government and thus the revenue recognition of these projects were impeded. As Malaysia's Temporary Measures for Reducing the Impact of Coronavirus Disease 2019 (COVID-19) Act 2020 came into force, the Group had obtained approval from Ministry of Housing & Local Government to exclude the calculation of liquidated ascertained damages for the failure to deliver vacant possession of housing accommodation for the period from 18 March 2020 to 31 August 2020.

With the RMCO, the Group's operations returned to normalcy. The latest imposition of the CMCO in October 2020 and 14-day MCO effective 13 January 2021 has not had any adverse impact on the Group's operations as the Group is permitted to continue with normal operations without any major form of restrictions or interruptions in daily activities save for the implementation and observation of the required SOPs and conditions which remain in place.

At the reporting date, the Group is financially strong with a net current asset and positive shareholders' fund amounted to RM592,053,000 and RM1,028,666,000 respectively. Besides that, the Group's holding cash and cash equivalents of RM235,423,000 as at 30 September 2020, and has no issue in its ability to continue as going concern in the foreseeable future.

The Group performed an assessments on the overall impact of the situation on the Group's operations and financial implications, including the recoverability of the carrying amount of assets and subsequent measurement of assets and liabilities, and concluded that there is no material adverse effect on the financial statements for the financial year ended 30 September 2020, other than impairment loss on property, plant and equipment and right-of-use assets as disclosed in Note 15 and Note 20 respectively.

As the situation is still evolving and the uncertainty of the outcome of the current events, the Group will continuously monitor the impact of COVID-19 on its operations and its financial performance. The Group will also be taking appropriate and timely measures in minimising the impact of the pandemic on the Group's operations and financial performance.

NOTICE OF 52ND ANNUAL GENERAL MEETING

EXPLANATORY NOTES:

1. Audited Financial Statements for the financial year ended 30 September 2020

The Audited Financial Statements are laid in accordance with Section 340(1)(a) of Companies Act 2016 (the "Act") for discussion only under Agenda 1 and do not require members' approval. Hence, this item is not put forward for voting.

2. Resolution 1 - Payment of Directors' Fees

Pursuant to Clause 121 of the Company's Constitution, any fees payable to the directors of the Company shall be approved at a general meeting.

Based on the annual review of the Directors' remuneration conducted by the Nomination and Remuneration Committee ("NRC"), the Board had, at its meeting held on 30 November 2020, agreed that the proposed fees payable to the Non-Executive Directors ("NEDs") shall remain unchanged as follows:

	RM per Year			
	Board	Audit Committee		
Chairman	-	24,000		
Member	48,000	12,000		

Shareholders' approval is hereby sought under Resolution 1 on the payment of NEDs' fees for the period from 17 March 2021 until the next Annual General Meeting ("AGM") of the Company to be held in year 2022. If passed, it will give approval to the Company to continue paying the NEDs' fees on a monthly basis instead of in arrears after every AGM for their services to the Board and Board Committees.

Any NEDs who are shareholders of the Company will abstain from voting on Resolution 1 concerning the remuneration to the NEDs at the Fifty-Second Annual General Meeting ("52nd AGM").

The remuneration of each Director is set out in the Corporate Governance Overview Statement.

3. Resolution 2 - Re-election of Director

Clause 114 of the Company's Constitution expressly stated that at every AGM, at least one-third (1/3) of the Directors for the time being shall retire from office and that all Directors shall retire from office once at least in each three (3) years. A retiring Director shall be eligible for re-election.

Tan Sri Datuk Ter Leong Yap, being eligible, has offered himself for re-election at the 52nd AGM pursuant to Clause 114 of the Constitution.

The NRC and Board had considered and were satisfied with the leadership and management of Tan Sri Datuk Ter, as well as the Chief Executive Officer role he helmed would continue to lead, bring sound judgement and valuable contribution to the Company.

The Board recommends the re-election of Tan Sri Datuk Ter Leong Yap at the 52nd AGM.

NOTICE OF 52ND ANNUAL GENERAL MEETING

SECTION // 08

4. Resolution 3 - Re-appointment of Auditors

The Audit Committee ("AC") at its meeting held on 30 November 2020, had undertaken an annual assessment of the suitability and effectiveness of the external audit process, and the performance, suitability and independence of the external auditors, Messrs Deloitte PLT ("Deloitte") as prescribed under the Paragraph 15.21 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The AC was satisfied with the suitability of Deloitte based on the quality of audit, performance, competency and sufficiency of resources the external audit team provided to the Company and its subsidiaries. The AC was also satisfied in its review that the provisions of non-audit services by Deloitte during the period under review did not impair Deloitte's objectivity and independence.

The Board had, at its meeting held on 30 November 2020, approved the AC's recommendation for the shareholders' approval to be sought at the 52nd AGM on the re-appointment of Deloitte as external auditors of the Company to hold office until the conclusion of the next AGM. Deloitte has indicated their willingness to continue their services until the conclusion of the next AGM.

5. Resolution 4 - Authority to Allot and Issue Shares pursuant to Sections 75 and 76 of the Companies Act 2016

The Ordinary Resolution proposed under Agenda 5 is a renewal of the general mandate and empowering the Directors of the Company pursuant to Sections 75 and 76 of the Act to issue and allot new shares in the Company ("General Mandate").

Bursa Malaysia Securities Berhad had on 16 April 2020 announced that listed issuers are allowed to seek a higher limit of General Mandate of not more than 20% of the total number of issued shares for issue of new securities ("20% General Mandate"). The 20% General Mandate may be utilised by listed issuer to issue new securities until 31 December 2021 and thereafter, the 10% general mandate will be reinstated ("Extended Utilisation Period").

Having considered the current economic climate arising from the global COVID-19 pandemic and future financial needs of the Group, the Board would like to procure approval for the 20% General Mandate, inclusive of the Extended Utilisation Period, pursuant to Section 76(4) of the Act, from its shareholders at the 52nd AGM of the Company.

The Board is of the opinion that this 20% General Mandate is in the best interests of the Company and its shareholders. The 20% General Mandate will provide flexibility and expediency to the Company for any possible fund-raising activities including but not limited to further placing of shares, to facilitate business expansion or strategic merger and acquisition opportunities involving equity deals or part equity or to fund future investment project(s) or for working capital requirements.

The 20% General Mandate, unless revoked or varied by the Company in general meeting, will expire at the end of the Extended Utilisation Period, i.e., 31 December 2021.

At this juncture, there is no decision to issue new shares. If there should be a decision to issue new shares after the general mandate is sought, the Company will make an announcement in respect thereof.

As at the date of this Notice, no new shares were issued pursuant to the mandate granted to the Directors at 51st AGM held on 12 June 2020 which will lapse at the conclusion of the 52nd AGM.

NOTICE OF 52ND ANNUAL GENERAL MEETING

6. Resolution 5 - Proposed Shareholders' Mandate

The Ordinary Resolution proposed under Agenda 6, if passed, will provide the Company and/or its subsidiaries a mandate to enter into RRPT of a revenue or trading nature with the Related Parties in compliance with Paragraph 10.09 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad. The mandate, unless revoked or varied by the Company at a meeting of members, will expire at the next AGM of the Company.

Please refer to the Circular to Shareholders dated 29 January 2021 for further information.

7. Resolution 6 - Proposed Renewal of Share Buy-Back Authority

The Ordinary Resolution proposed under Agenda 7, if passed, will provide the mandate for the Company to purchase up to 10% of the total number of issued ordinary shares of the Company. This authority, unless revoked or varied at a general meeting, will expire at the conclusion of the next AGM of the Company.

STATEMENT ACCOMPANYING NOTICE OF ANNUAL GENERAL MEETING

(Pursuant to Paragraph 8.27(2) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad)

- 1. There were no Directors standing for election at the Fifty-Second Annual General Meeting.
- 2. Please refer to Explanatory Note 5 for information relating to general mandate for issue of securities.

PERSONAL DATA PRIVACY

By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the Annual General Meeting ("AGM") and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the AGM (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "Purposes"), (ii) warrants that where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees and undertakes that the member shall indemnify the Company and/or to keep the Company fully indemnified and save the Company harmless against all and/or any actions, demands, claims, losses, costs, proceedings and damages (including all legal fees and costs) which the Company may suffer or incur in any manner howsoever arising from or as a result of the member's breach of the aforementioned warranty.
